11/15

to your Division
Superintendent

The Secretary to the Commission
for the Govt of the Territories of
H H the Rajah of Mysore.

1. I have the honor herewith to
forward for submission to the Com-
missioner, copy of a correspondence
between Mr Neppen, myself and
Messrs Morrison & Co regarding the
supply of Country Spirits to the
Division in Contract. It will be seen
therefrom that the terms offered by
Mr Neppen are different from, and
more favorable than those of
Messrs Morrison & Co, but that the
former wishes the same to be re-
gistered in the

than 11 Annas and 2 pie in the be-
ginning of the year in ad-
-vance and there is every reason to
fear it will rise still higher; the
cost would therefore be larger in
future, besides which the trouble at-
-tending the management is consider-

4. Under these circumstances I
beg to recommend the terms of Mr.
Heppin's offer for the Commissioners
favorable consideration and early
approval that I may lose no time in
accepting it as soon as I hear from
Messrs Morrison & Co that they agree
to them.

I have the honor to be,
Sir

Chester, 14th December,
1860

Colonel J. F. Porter,
Superintendent
Mugger Division,

Sir,

I beg to state for your consideration, that if permitted by Government to establish a Factory in this Division for the purpose of distilling Spirits for the use of Natives, and the right of supplying Government secured to me by Contract, for a period of five or six years at similar rates, and on similar terms to those, Mr. Proves of Phaulkley is now supplying the Bangalore Division. I will undertake to establish a Factory at Chudoor for this purpose, and supply Government from Europe with Spirits of the various kinds of strength that may be required.

If my proposal meets with your approbation, and I am informed of the quantity of Spirits that will be required for consumption in this Division Monthly, I will without delay enter into the necessary arrangements, and inform you when I will be prepared to supply the Spirits.

I also beg to state that in the

expense of carriage in forwarding
the supply from thence to the various
Talooks would be too great I hope
therefore you would be able to select
some more central situation.

Camp - - - } I have the

Chekinga gloon 23^d Decr 1860.
Colonel S. L. Porter,
Superintendent
Bengal Division
Sir,

I beg to acknowledge receipt
of your letter of the 18th instant, and
in reply to state, that Mr. Groves of
Bhatnagar supplies Government with
spirits for the use of stations in
the Bangalore and Astaragan Divi-
sions at the following rates

Spirits of 20° strength @ Rs. 10-00 per
gallon
do of 25° do @ " 13-00 per do
do of 31° do @ " 1-5-00 per do
do of 35° do @ " 1-7-00 per do

The spirits of 31° degrees, is supplied
for one year / the present to the
Bangalore Division at Rs. 1-7-00 per
gallon. At the above rates the
spirit is sent free of Carriage to the
Head Quarters of the Division, and
all.

all extra to the one or of equal
distance from the Factory.

Further to be said, that
my reason for wishing to establish
the Factory at Sudbury owing to the
large number of required for the Distillery
being nearer the river than in any
other place in the county.
and it is in a more healthy
situation than elsewhere, and
trust this will be a reason to the
as the spirit to be distilled to
Government at the same rate and in
near carriage free of duty.

Recd to acknowledge receipt
of

in your letter at the 4th instant,
which owing to the various parties
in the post to this place, I was
not able to reply to sooner.

The proposed Factory is
a stilling spirit for the supply
of the wharves in the Division
was to have been established by
Mr. Morrison and myself but he
is now having since admitted a
partner into his business at Maidas,
so we wish the Factory to be estab-
lished in the name of his Firm.
Therefore beg to request that the
tender made by me on the 23rd inst
may be registered in the name
of Morrison & Co.

I also beg to state that
if there is no objection on the part
of Government in accepting the
tender and granting a contract
for five years the firm will
supply 5000 gallons of Spirits
from

from the 1st of March and the
total quantity of 8000 gallons
from April next. I have com-
municated the contents of this
letter to Mr. Morrison and the
firm will make the necessary
preparations to meet the require-
ments of Government at the
time specified if no unavoidable
delay takes place on the part
of Government in granting the
contract.

Correspondence between Messrs Morrison Esq and the
Superintendent

Madras 21st Decr 1860

To Colonel Porter

Superintendent Suggar Division
Sir,

About a month ago we made some enquiries through Mr. Sheppen regarding the requirements of spirit in your Division and Mr. Morrison after a visit to the Suggar Division came to the conclusion that under the help of the Superintendent a distillery might be established at Bananay which should furnish spirit for the wants of the Artillery Department.

Having made known our views to Mr. Sheppen on this subject we are sorry to see from the purport of your letter to him that he has quite misinterpreted our wishes, and a misunderstanding having thereby arisen we write to you ourselves with a view of learning your wishes on the subject of a contract embracing a period of either three or five years. We will thank you to name the probable amount of capital you will require per month from 1st March and if you make any calculations about our taking over copper, pots and utensils which would be useful to us you will have the goodness to inform us of the probable amount of their value when

when I will write again on the subject.
I have been engaged in these times
many hours and have had, in turn, more an
engagement with the agent of the State.

From a far more in sufficient spirit
to be able to do a million

in doing them you are well done
you are a great man.

Dear Sir,
I am in the hands of the

almond, Morrison

10-75, 10-75

Superintendent of Spec.

10-75

10-75

in reply to your letter of the 10th
instant, I have the honor to inform you that
the probable quantity of arable requires
for consumption in this situation is 1000
gallons per month on average, and that
the cost of the expenses per month
under the finance management amounts

to 3/6p - 10 of which those that are
undiscoverable will of course be 10/10

at the risk of the Government

2 I shall be glad to have your
tender as soon as possible so that I
may judge if it is more favorable
than the one received from Mr. Nieppen,
a copy of which is enclosed for your
information.

Camp in

27th Decr 1860.

I have &c
Signed / S. F. Porte
Capt

20

Madras 2^d January 1861

Colonel S. F. Porte

Superintendent & Suggur Division

Sir,

We are in receipt of your letter dated
27th December 1860 informing us that the
consumption of Spirit in Suggur averages
8,000 gallons per month, and from an
examination of a sample pint of Arrack
now in use at Suggur we infer that
about 4,000 gallons of Spirit of 30 Cartas
or 25° by Sykes Hydrometer would meet
all your requirements.

We therefore propose to supply
you

You from 1st March 4000 gallons of
strong spirit of 30 degrees by Carters at
a home metric deliverable at a fair price
namely on Dudson at the rate of one
Napier right ounce per common wine gal-
lon, and weaker spirit at a proportion-
ately lower rate.

The spirit to be paid for on
delivery of each month's supply and
the heads to be either returned to us
or their value to be charged in account.

The Contract to embrace a period
of five years from commencement of
first supply.

In making the foregoing pro-
position we have to remark that the
outlay attending the establishment
of works so distant from our sta-
tions will not permit us to make
more favorable terms, and in reference
to the delivery of spirit at each Port
we beg to say, Mr Groves has not
mentioned

ventured^{to} on such a step hitherto, and
we could not combine delivery of Spirit
with distillation without establishing
Agencies in each Salook.

With respect to the Copper-pots
now used under the Amany management
we beg to say that these are utensils
not used by us, but should it be your
desire that we purchase them we
will do so under an inventory and a
discount being allowed us, should
this not meet your views we will give
market value for them on their weight
being ascertained.

The establishment of even temporary
work would take up so much time
that we would not be in a position to
give you Spirit on the 1st March un-
less an early decision is made.

We have the honour to,

Sir
Your most obed^t Serv^t

Sir,

With reference to our letter
informing you of our having
commenced our arrangement
for carrying out the Spirit Contract
from 1st May we have to inform
you that we have purchased a
quantity of Yagery in this Talook
and our stills will arrive in time
to be put up at Luddoot which place
offers advantages not to be met
with elsewhere both as regards
roads and proximity to date jungle.

As our works both in
the shape of building, stills and
stocks of Yagery were cost us consi-
derably more than we anticipated
owing to the enhanced prices of
raw materials, we have the honor
to request you will grant us an

advance of Ten thousand
Rupees repayable in twelve
months by equal monthly instal-
ments, and for which we beg
to tender the enclosed transfer
of a half share of the Kelagore
Coffee Estate situated in this
District as security until we
repay the amount. The Agent
of the Astagram Sugar works
receives this advance annually
although the works of that
concern have been long esta-
blished in consideration therefore
of the heavy outlay we are put
to at the beginning we beg the
same indulgence may be granted
to us.

We have the honor to be

Section	20
File No	1
Serial No	1

Messrs Morrison & Co Contractors
for the supply of Arrack are desirous of taking a contract of the whole Moharee of the Division

Arrack
Sale proceeds up to the 20th Apr^l last on which the annual accounts were closed Rs 12,774-4-10
do for the remainder of 10 days of the year 3853-7-2 to the 30th of April 1866 inclusive
Total — 13,594-12-0 as follows.

Deduct Costs
As per By-subs.
the accounts 53746-6-6
Bills since adjusted on account of the same year — 2392-8-11
mainder Net Revenue — 56138-15-5
at probable value of 75455-12-7
things & serviceable as on hand of which the at price was Rs 7819-14-3 5695-15-5
Net Revenue of Arrack 81187-12-0
Tobacco — 35475
Ganja — 373-4-0
Total 117000

1861/62	Rs 115,000
1862/63	116,000
1863/64	117,000
1864/65	118,000
1865/66	119,000
Total	585,000

This averages at Rupees 117,000 per annum, an
Revenue 1 year's net the same

2 The cost of Arrack under
Amance last year was 8 Annas
per gallon exclusive of the stores
on hand, whereas that since the 1st
instant is estimated at $11\frac{2}{4}$ vizt
10 Annas to the contractors and the
remainder the cost of establishment
and carriage to the Talooks, the
difference being equal in round
numbers to not less than 20,000
Rs with reference to the quantity
consumed last year in which it
was nearly one lac gallons, and
though I expected to be able to
recover the said sum by raising
the price, yet I find the consump-
tion is falling off with the in-
creased rates accordingly introduced
since the 1st instant, so that I am
afraid the result would be un-
favourable, besides which the
trouble atten-
ment is

which is composed of Arnae ^{is} ~~is~~
and Ganja as above marginally
shown, was no more than Rupees
27,812-10-6 in 1834/35 when European
Superintendents were first ap-
pointed, and the increase since is
Rs 89,187-5-6 of which nearly
a moiety has been obtained during
the last 3 years. The principal item,
Arnaek, being managed under Ama
last year. I think the full extent
of revenue to be realized by the
Sinkar has already been tested, and
the great difficulty which I ~~found~~
in supplying the Mulnad Salooks
during the monsoon now the ma-
nufactory has been removed to a
distance, is another reason for
my recommending the proposed
arrangement.

4 Prolonged leases of the kin
in question long in fore
in the ces, as
Madras

Revenue Board's Circular order
dated 24th December 1855.

5 Under all these circumstances,
I have the honor herewith to submit
the original tender received from
the said Company for the Commission-
er's favorable consideration at
an early date, as they propose
to take charge of the Depart-
ment at once should the contract
be approved of.

I have the honor to be
Sir,

Your most obed^t Serv^t

Shemangah
28th May 1861 }

J. H. B. M.

Superintendent

I am inclined to think
that the security
in the fulfilment of the
terms of such a contract
adequate and satisfactory
there are considerable
advantages, such as the
facility of collection &
the absence of disputes
which are likely to
arise from the introduction
of the contract in lieu
of the Finance System

Of Messrs. Morrison
& Co. are prepared
to offer more advantages

terms for the loan
of the advance
contracts of the
Messrs. D. & P.
a term of 3 or
even 5 years ~~than~~
than those which
they have already
tendered, and
are willing to offer

An increase annually
say Rs
of 3000 upon their
original tender &
shall be happy to

I reply state that I do not
 consider that Messrs. ^{W. H. H. H.}
 & Co have offered terms
 sufficiently advantageous
 to warrant my sanctioning
 the grant of a contract
 to them for so long a period
 as 5 years, during which
 there is every reason
 to believe that a very
 considerable increase
 of receipts from this source
 of Revenue may be
 expected.

I do not object to the
 granting of the
 same.

Mysore Commr's office
of The Superintendent
of Mysore

Sir

With reference to
your letter No 98 of the
28th ultimo and its enclosure,
I have the honor, by desire
of the off^{ce} Commissioner,
to acquaint you that he
does not consider that
Messrs Morrison & Co have
offered terms sufficiently
advantageous to the
Mysore Government
to warrant his sanction
ing the grant of the Abba
Contract of your Durbar
to them for so long a period
as 5 years during which
Reason
to

to believe that a very
considerable increase
of receipts from this source
of Revenue may be expected.

The Offg. Commissioner
does not object to the
system of granting a lease
of the Akhary Contract
to a single Contractor
or a Company of several
individuals the security
for the fulfilment of its
terms being, as in the
present case, adequate
and satisfactory, for,
he thinks that the plan
is attended with many
advantages, such as the
diminution of labour to the
Public Officers, the facility
of collection, and the
absence of disputes
likely

likely to result from the
introduction of the
Contract System

If Messrs Morrison
& Co are prepared therefore
to offer somewhat more
advantageous ^{than those already tendered} terms for
the lease of the Abkary
Contract of your Division
for a term of 3 or even 5
years ~~than those already~~
~~tendered by them~~, and
are willing to pay
an annual increase
of ~~Rs~~ Rupees 3000
upon their first tender
the Offg Commissioner
will be happy to accord
his sanction to the
arrangement.

Yours &c

By desire of the
Offs Commr, I have
the honor to acknow-
ledge your letter
forwarding copies of
~~the~~
the Correspondence ~~concerning~~
~~affairs~~ which had
~~taken place~~
~~was held~~ during the
past year on the sub-
ject of the arrangements
for the supply of spirit
entered into with
Messrs. Jones & Co
Messrs. Morrison &
2 From a perusal
of the above correspon

it would appear that
in June 1860, the then
Supt., Captain Martin,
entered into arrange-
ments with Messrs. J. & C. of
the Astoria Sugar
Company, by which that
Firm undertook to
supply 3000 Imperial
gallons of proof
spirit per annum, for
the use of the Alkali
Establishment of the
Bangalore Division, in
lieu of 4000 gallons
required by Capt. Martin
and subsequently, ^{that} an
application was sub-
mitted by the same Firm
to be allowed a 5 year
Contract for the supply
of 4000 gallons per

mensure, at \$1.40
per fallon.

3. On the 8th of
Nov., Mess^{rs} Morrison
& Co wrote to state
that having been in-
formed that the Agents
of the Astorian Sugar
Works had tendered
to supply 4000 fallons,
as above, they begged
to be allowed to supply
the remaining quantity
required which they
estimated at 4 to 6000
fallons, at the same
rates, & for the same
period. These appli-
cations were submitted
by the Supt of the D^y,
Major Dobb, for the
Sanction of the Comm^{rs}
who authorised their
acceptance, & endorsed
in his own handwriting

the following words:

"This arrangement seems
desirable as supplying
a genuine spirit at a
moderate rate, and
relieving the public
servants from much
troublesome work."

4. The Sup^t of the
S^t accordingly wrote to
Messrs Groves & Co. accepting
their tender; and to
Messrs Morrison & Co.
informing them that
as the consumption was
only 4500 gallons, 4000
of wh^{ch} were supplied
by Messrs Groves & Co., he
could accept only 1000
gallons per mens^{ure} from
them; but that he
doubted if it would
suit them (Messrs) to
Maguan

+ for the 1000 Gallons.

5. As Messrs. Morrison & Co's compliance to supply 1000 gallons does not appear from the correspondence, the M^{rs} Messrs. presume that they must have declined either directly ^{to undertake the work} or indirectly. Under these circumstances Messrs. Morrison & Co's contract of 4000 gallons per annum would appear to have been the only supply on which the Supt. had to depend, supplementing the deficiency to meet the consumption from other local sources.

6. It is clear that Messrs. Morrison & Co. had bound themselves to 4000 imp. gallons

per annum, and although proper security does not appear to have been taken from them, the high standing of their firm, and the extensive character of their dealings were, the Commission doubt not, relied upon as affording sufficient guarantee for the due fulfilment of their engagements as per contract.

7. As the supply promised by Messrs. [unclear] in the months of May, June & July, and especially in June, had fallen short of the stipulated quantity, the Commission, upon receipt of your letter N^o 233 of 7th Augth last

Cor 146 of the 15th August 1861

*No 233 of the 20th Id

it right to call upon
them for an explanation
of the causes which
led to the short delivery

A copy of this letter
& of Messrs. Prover's re-
sponse ^{are included} ~~is appended~~

The latter is straight-
forward and to a
certain extent satis-
factory, as ^{it} ~~shows~~ ^{shows} that
the temporary failure
to supply the full
quantity was owing in
a great measure to
circumstances beyond
their control, and not
to neglect or want of
precaution on their part
The M^{rs} Prover, con-
sidering the very heavy
outlay (£15000) in-
curred by Messrs. Prover
in setting up machinery
is of opinion that

their partial failure
in supply during the
3 months alluded to,
for the reason, set forth
by them, does not afford
a sufficient warranty
for cancelling their
Agreement with the
Mexican Government.

Had such Agreement
any penalty attached
to it, ^{had} or its engage-
ments ^{been} supported by
tangible Security, he
would have deemed
it his duty to have
required either the
enforcement of the
former, or the surren-
der of the latter.
The U.S. Government however
still considers that
Mexican Govt. ought to
be required to supply
the deficiencies of May,
or June, and

glad to perceive that
while in July they
supplied only 3095
gallons, the quantity
furnished in August
was no less than
4689 gallons, thereby
evinced a very lauda-
ble endeavour to
regain their equi-
librium as soon as
might be possible

8. The McMinn
is also of opinion
that, should it be
actually found necessary
(which he very much
doubts) to pay the
retail vendors any
moderate compensation
for deficient supplies,
Mess. Grocers may
very fairly be called
upon to indemnify
the House for - for
this they

have stated themselves
to be prepared to do,
at the discretion of
the W. J. Linn.

9. With regard
to the future manage-
ment of the Alaska,
and bearing in mind
that Messrs. Grover &
are in possession of a
contract for the supply
of 4000 fathoms monthly
which the W. J. Linn.
considers that they
cannot fairly and
equitably, under the
foregoing circumstances
be called upon to
relinquish, Mr. Saurin
thinks that it is
highly desirable to,
up to public con-
tention the favor
branch of the
not only for

fantomments and
the Wakeaddies, but
for the whole of the
Bangalore Division
as recommended by
you, except however
with this condition
that whoever takes the
Contract will be pre-
hared to fulfil the
engagements of the
Mysore Govt. with
Messrs. Fowler & Co. by
agreeing to take for the
remaining term of their
lease 4000 gallons of
Spirits per annum
at the rate previously
agreed upon.

2. Should you
consider it advisable
to act upon the above
suggestions, and if
there be no special
reasons for adopting
course, or

grounds for not
leasing at one & the
same time the Contra
for the whole Abkaree
Farm of Mr. Drissin
the Muzammarth is
your accepting tender
for the same, and
appointing a date for
the sale ^{thereof} by public
competition, reserve
of course to the Mysore
Govt., the right of
refusing all the offers
without assignment,
any reason, or of
accepting any although
not perhaps that of
the highest bidder.

The party whose tender
is accepted must
furnish sufficient
guarantee either
money, Govt. Rs.
or other convertible
document

* and should be
required to deposit
with his tender for
Paper to the extent
of Rs 10,000.

Equally reliable
& valid security
to be furnished

for the due fulfil-
ment of his contract.
The lease may be
for 3 or 5 years, but
with reference to
possible political
contingencies it would
be necessary to enter
a special condition
whereby either Party
may terminate the
Contract by giving one
year's notice. This
condition has been
inserted in the Mysore
Abkare Contract, &
if duly made known
before the sale, it is
not likely to be ob-
jected to by intending
Contractors.

Bangalore }

Yours
Secretary

1861 No 192-

Off Superintendent
Bangalore

Dated 3rd 16th October

Let Mr. Lewis his
letters of the 10th & 16th Sept.
Nos 83 and 289, for an
express of Correspondence which
has taken place on the subject
of the arrangements for the
supply of Spirit entered into
with Messrs Groves & Co and
Messrs Morrison & Co and
copy the Commissioners
Suggestion thereon

No 2 Decy 15th Dec 1861

61.

Bangalore 2nd Sup^{dt} OfficeBangalore 21st October 186

From

Major J. Clerk

Superintendent of the Astagram Division
and Off^{ce} Sup^{dt} of the Bangalore Division

To

The Secretary to the Commissioner
for the Government of the Territories
of the Rajah of Mysore
Bangalore

Sir,

In reference to your letter of the 16th Instant A 192 on the subject of renting the Akbar of the Bangalore Division I have the honor to submit herewith a copy of the rules I have drawn up for regulating the contract, which I beg you will do me the favor of submitting to the Commissioner and returning if approved as early as convenient. Meanwhile I have sent a short advertisement to the Herald intimating that tenders will be received up to the end of November.

Sir

Your most Obedient Servant

M. K. K.

Superintendent of the Astagram
and Off^{ce} Sup^{dt} of the Bangalore

1861. No. 414.

From
The Superintendent of the
Bengal Division

To the Secretary to the Commission
of Mysore.

Dated 27th October 1861
Received 28th do

No. 361

Number of enclosures - 1.

Refers to No. 172 of the 16th
October 1861 & on the subject of
issuing out the Abstract of the
Bengal Division and forwards
copy of the same drawn up on the
subject.

Notice

Tobacco
Arrack
Ganja
Opium
Sugars

It is hereby notified that the
Abkari of the Bangalore Division
consisting of the five items marginally
noted, will be leased out each item
separately, for 5 years, commencing with
the 1st May 1862.

2. The public are therefore hereby
informed that sealed Tenders will be
received in this Office up to the end
of November 1861.

3. The Tenders shall invariably
exhibit the amounts offered clearly both
in figures and writing for each of the
5 items separately.

4. The Tenders will be opened by
the Superintendent on the 2nd of
December 1861 at 1 P. M.

5. The Superintendent reserves to
himself the right of rejecting any Tenders
without assigning any reasons. The highest
Tender will not necessarily be accepted.

6. The Contract may be terminated
at any time by either party giving one year's
notice.

7. The party whose tender is accepted
must at once furnish a deposit of cash or
Government paper and personal security
to the under-mentioned extent, for
the due fulfilment of his contract.

Items

	Deposits in money or Government paper.			Personal security		
Tobacco	10000	"	"	40000	"	"
Arrack	25000	"	"	100000	"	"
Ganja	800	"	"	3200	"	"
Opium	500	"	"	2000	"	"
Cajun	100	"	"	400	"	"

8. The Arrack if forced must be of 18 degrees and of good quality, a sample is to be furnished and the Contractor must furnish spirit equal to the sample.

9. The Contractor is expected to receive monthly from the Mysore Government and Company 4000 Gallons of Arrack of 30 degrees at Rupees 1-4-0 per gallon delivered at the Contractor's godown in Bangalore. Government has entered into an agreement with them to that extent. This contract expires on the 30th April 1866.

10. The rights of the several Jajars, Enamdars and Cozemgottadars, in whose grants any of the Punchabob items are included and heretofore continued, shall be respected, i.e. the Contractor is not to interfere with the sales of Tobacco or Arrack, their villages by themselves as heretofore.

The Tobacco, Arrack, or others, of the Department are subject to the operations of the Shikharfa Tax.

All disputes between the Contractor and his sub-lessees are cognizable in the civil courts only.

11. A schedule of rates at which such articles in the several localities is to be

Sd/-

Sold, will be furnished to the Contractor - Any changes in these, subject to the Contractor to such penalty as the Superintendent may deem it requisite to impose.

14. A set of rules hitherto in force as regards the sales &c. will be furnished for the guidance of the Contractor.

15. The Contract amount is payable in 12 equal instalments and the instalment for each month must be paid before the 20th of the month following that for which it is due, either in the Surber Treasury or any of the Talook Treasuries. In the latter cases the Talook Receipt must reach the Superintendent by the 20th.

16. The localities of the Alkarry Shops should not be changed nor new ones be created without the previous sanction of the Superintendent.

17. No Toddy shall be extracted from young immatures Date trees, the trunks of which are less than one yard from the ground to the springing of the branches, and if extracted, such instances will be visited with a fine.

18. No extraordinary shops shall be maintained while Troops are on the march: no Toddy or Arrack be sold to European Soldiers or their servants under any pretence or at any locality whatever, any person found guilty of such an offence will be severely dealt with.

19. Should the Contractor fail to fulfil the conditions of his Contract, the Superintendent will take such measures as he deems requisite under the circumstances.

circumstances, to protect the interests of
governments.

Mysore Commis^{ion} Office
To The Off^{ice} Superintendent
of Bangalore
Sir,

24th October/61 N^o 361

4th November/61 N^o 372

My

With reference
to your letter regarding
noted. I have the honor
to inform you that the
Off^{ice} Commissioner has
had under his considera-
tion the Rules for Regu-
lating the Contract for
the Abkarry of the
Bangalore Division
I am desired to state
that he thinks them
well calculated to
meet the requirements
of Government both
as

as regards the sale
of Specimens & Signs
and intoxicating drugs
&c. and also that they
are drawn up in such
form as will place
the necessary checks
upon the Contractors
and enable you to
obtain from them ~~all~~
sufficient & satisfactory
~~necessary~~ ^{fulfillment of the terms of} guarantees
— The Off. Com.
missioner presumes
that it is your intention
to lease out the Con-
tract if possible of all
the Articles enumerated
in the Margin of the
Rules to one or two
Contractors or

two parties joint
Contractors, & he
desires me to add
that in his opinion
the Sale of spirituous
liquors Viz. Toddy
and Arrack should
be disposed of in one
lease to prevent any
thing like disputes
or collision between
the rival Contractors,
whilst he is mean-
t to think that the
other three Intoxic-
ting or Narcotic drugs
Viz. Ganjah, Opium
and Majun might
advantageously be
put up together
instead

~~Let~~
them contract

instead of separately
and disposed of to one
or several joint &
Contractors.

3 — The advertisement
in the papers should
if necessary be altered
to admit of the above
instructions being
duly carried out.

Sallah, 25th November 1

Superintendents of the Adittagram Division
and Offg. Sup^{ts} of the Bangalore Division
To The Secretary to the Commissioner
for the Governments of the Territories
of the Rajahs of Mysore
Bangalore

Sir,
In reply to your letters Nos 210 and
216 of the 14th and 20th Instant; I have the honor to
inform you that agreeably to the suggestions contained
in the former I caused an advertisement to be put in
the Bangalore Herald notifying that the Arrars
and Toddy would be leased to one Contractor, and the
3 other items would in like manner be sold together.
There is nothing to prevent one Contractor or Company
from obtaining the whole of the items comprising
the Abkarry, though of course two tenders must
be made for them. The time is too short to admit
of any further alteration being made in the notification
but I will cause it to be made known to the
merchants and others residing in Bangalore
that there is nothing to prevent one party from
obtaining the 5 Items.

Suggur Division
Superintendent's Office

To

The Secretary to the Commissioner
for the Government of the Territory
of the Rajah of Mysore

Section	35
File No	11
Serial No	11

I have the honor to forward
an original letter to my address from
Messrs Morrison & Co the Arkhree Con-
tractors for this Division, for such
notice and orders as the officiating Com-
missioner may be pleased to pass.

2. With regard to the request
therein contained for a reconsideration
of the annual payments required of
them, I feel I can offer no remark
as they were agreed to with the free and
full consent of the Contractors. I would
however observe for the officiating
Commissioner's information, that from
all I have been able to learn since
my taking charge of Suggur, it ap-
pears to me that the Contractors are
not competent to carry out so immen-
se an undertaking. But they would ap-
pear to have
speculative
and with

atlay in setting themselves up with
still &c from Europe. They in conse-
quence to advocate some consideration
being shown to them, but the manner
in which this should be extended to them
I would respectfully leave to the offic-
ing Commissioner's decision.

Another point I feel it my
duty to bring to the notice of the off-
Commissioner is that the Arrack supply
by the Contractors has been found to
be of a deleterious description. Some
time ago a quantity of it was forwarded
to the Chemical Examiner at Madras
for Analisation when it was found
to contain a small quantity of Copper.
No complaints on this score have been
made to me personally by the people
of the District, but some must have been
made to my predecessors or the above
correspondence could not have come on
my file.

In conclusion, I beg to state
I shall make it my duty on the
earliest opportunity to inspect their
distilleries and shall take care that
the works the by carried on and
that the by them are
of the right

No. 203

Superintendent's Office

File No	169
Serial No	2

Mysore 5th June 1862.

The Secretary to the Commissioners
for the Government of the Territories
of the Rajah of Mysore
Bangalore

Sir

I have the honor herewith to forward for submission to the Commissioner an original tender from Messrs Edwards & Co for the Chikaree Contract of the Division for 3 years from 1st ultimo, and also an agreement from Messrs Groves & Co^{ys} to continue their supply of Spirit to Messrs Edwards & Co should the tender of the latter be accepted by the Sirkar.

I - Before entering on the terms of this tender, I shall explain the system of management at present pursued. The items included in the Pungboh revenue are Toddy, Areca and Ganja.

The "Bungy" or Sago Palm toddy trees Unperabads in the Malnad Talooks where they are
Haheraj, King found are subject to a fixed Cundogam chargeable as a land rent on the King's property on which they grow which is included

in the Jummabundy Pattahs of the owners, but credited to the Gumpahs.

3- Date groves are subject to a small Cundoyem known as Patt Cundoyem payable by the party actually tapping the trees whether he be a direct Contractor with Government in which case he pays the Cundoyem or a Sub-Contractor who pays to the principal Contractor.

4- Perack is purchased from Messrs Groves & at Palhully with whom there is ^a general agreement that they shall supply the quantity required for the use of the Division.

Ganya is purchased in the market by the Sirkars

5- Tenders are received at the commencement of the official year, for the sale of Date Toddy in the usual shops but hitherto without any definite local limits being prescribed for the tenders, i.e. offers are received for single shops, for the shops in one or more villages, or for those in a Hobly.

On a tender being confirmed the Contractor obtains a Monopoly of the right to draw toddy in the Date topes understood by custom to be attached to the shops for which he has tendered and becomes answerable

answerable for the Pett Cindoyan.

6- In Villages the Soddy is retailed at 6 annas per pot of 24 teers or 7 Gallons. 4 quarts on a calculation that 3 annas covers the expenses of drawing and carriage with a fair profit for vending.

7- The rate in Cusbas and Towns is 10 Annas.

8- In the Towns of Mysore, Hoonsoor and the Cantonment of the French Pochko, as well as in places where favorable contracts are not offered the sale is entirely under amani. The Soddy is drawn by hired men of the Soddy drawing Caste, conveyed by hired Carts to the Towns and received in depots styled Purkhanas. Each depot contains a certain No of individual shops the occupants of which take the Soddy and sell it on 5 per cent commission.

9- As regards Anacka Surkar Gornastah remains at the Factory at Palpully and according to Indents received from Amildars and the Puntob Dargah of the Town of Mysore, receives the liquor from the Factory and forwards it on hired Carts to its destination where it is transferred to vendors who receive a commission of 10 per cent on the sales except at Mysore where it is $7\frac{1}{2}$ per cent.

Ujra is sold on 25 per cent commission
renders at the rate of Rs 36-5-10 per Mound.

Such is the present system, under which
the aggregate revenue, minus the commission paid
to the vendors is credited, and the cost of
management debited per contra, but as
no distinction is made between the Sayer
and Panyboh Departments, the duties in-
being carried on indiscriminately by one
set of officials assisted by the Talook sub-
ordinates it is impossible to show the charges
of each department with accuracy.

Previous to 1843/44 the three items were
viewed out on contract, but the Amami Sys-
tem was introduced in that and the fol-
lowing years.

2. For the first 5 years after adopting
the Amami system the charges were deducted
from the gross revenue and the remainder
net revenue only exhibited in the ac-
counts which was rectified in 1849/50 -
when the accounts were framed in their
present form.

3. Under the contract system in 1834/35
the net revenue was Rs 68,104-10-3 Last
year's net revenue, i.e. after deducting all
charges and computing the Sayer charges

at $\frac{1}{2}$ of the combined Sayer and Punjab
Establishment amounted to 2,44,448-8-9.
being an increase of 259- per cent.

The annexed statement will show

Gross revenue shown in the Jammabund accounts — 29,927-10-6	that the revenue rose gra-
Deduct Costs.	dually from Rs 68,104-10-

			Total — 1,71,180-4-0

Deduct

Cost as above marginally shown —	<u>53,479-1-9</u>
Net Increase over the year preceding the Amami	
management i.e. 1842/43 —	1,17,701-2-9

Sufficient knowledge has been gained
by 14 years experience to afford good data
for accepting or declining an offer to rent
the Akkare, and there can I think
be no question of the advisability of
simplifying

simplifying the system of rendering it uniform with that of the other Divisions, of separating the Sayer and Panjhab Department which have no necessary connection, and above all of Government ceasing to retail spirits.

16 The following points however must necessarily be decided before any engagement is made to place the contract on a clear footing and confine it within legitimate limits.

17 The first question is whether the Date Tapes are to be made over absolutely to the contractors or whether the Sarkar should retain the power of granting them to applicants for cultivation; and in the latter case whether the contractor should receive compensation for the diminished extent of the tapes or not.

18 I have lately called for a measurement of the tapes and an account of the No. of trees, neither of which have been hitherto kept; so that their extent and resources are not known at present; but it is ascertained that many are not fully worked and that others are reserved in case of emergency or failure

Application

19 - Applications are daily received for extending cultivation to these tracts and the retention of more than is absolutely necessary for abkaree purposes retards the improvement of many villages.

20 - I therefore consider that the Sirka should retain the right of granting portions of the topes for cultivation when applied for. The advertisements lately published in the Fort St. George Gazette show that in all the neighbouring Districts of the Madras Presidency this right is reserved by Government without any charge on the part of the contractors for compensation and I therefore leave this part of the question for decision of the Commission.

Salum
Gurhatore
Aree.

The items noted in the Margin are

Pett. Cundoyem	17180-13-9	included in the Pay bill
on the Manufacture of Jaggery	4067-5	
" on the Trade of other articles with Goddy	268-11-5	and the next point is
Contractors of Mat-makers	295-11-11	Therefore their retention
Salvage proceeds of withered date trees	225-12-2	or abolition.
Levy on gumrah (Taxes &c)	432-9-3	
<u>Total</u>	<u>22470-1-11</u>	

21 - The Pett Cundoyem forms no part of the legitimate Land Tax of the Country, and so far as I know does not exist elsewhere. It appears to have been imposed at the suggestion of a former Head Sheristadar of this Division.

in consequence of the contractors having subrented the topes in the manner before the Amami system was introduced.

22^d It amounts to Rs. 17,180-13-9. and should I think be abolished, viz the contractors should have no necessary right to levy the rates at present recognised as the custodians of the topes (which are by no means uniform) but should make separate engagements with his sub-contractors or drawers according to the convenience of the parties.

23^d The next point is the settlement of the right to collect a tax on the manufacture of jaggery in the date topes.

A tax is now imposed on each oven

at rates varying from

Ruppes 1-4-4 to 3 Rs.

amounting to 4,064-0-5

last years.

Messrs Groves contract
of the spare topes } 1260-
in Banawar and
Harnully Salooki }

Total 4064-

24th I propose that low Moh tarphas rates should be imposed and credited to the Moh tarphas as a trade tax diverting the contractor of the right to collect the present oven tax, but giving him the power of disposing of the surplus date juice to the jaggery makers in the

topes included in the general contract.
2. Mess^{rs} Groves now rent certain topes
at Banawar & Harbully for 5 years
from 1861/62 with the exclusive purpose
of obtaining the jaggery and these will be
excluded from the contract. In the
same manner petty contracts of meat
makers who cut date leaves, the sale
proceeds of withered trees and the shop
tax on persons selling small articles such
as parched gram &c in the same spot
with today should be transferred respectively
to Moktarpha and Sevoj jummah the
contractor having no connection with them.

26 — There seems to be no necessity for
altering the present practice with regard
to the Sago Palm trees standing on private
property.

times &c
27 — The last item should not have been
credited to the Punjab Department
and would in future be carried to
account in the general Sevoj jummah.

28 — The Ganga at present purchased
by the Sirkar for sale is exempted from
Sayer duty to which in the event of a
contract being granted it would
I presume be liable.

These preliminary points having

been noticed I have to remark with reference to Messrs Edwards tender that they offer the sum of 2,30,000 Rs. per annum stating it to be 24,000 Rupees above the average of the last 5 years net Revenue, but in striking that average they have omitted the last year 1861/62 basing the calculation on the result of the previous 5 years, thus making a difference of Rupees 15116 as shown below.

	Gross Revenue Rs.	Deduct Expenses Rs.	Remainder Net Revenue Rs.
1857/58	243589	29389	
1858/59	238333	34341	
1859/60	255912	44100	
1860/61	279257	48010 33	
1861/62	297927	53595	
Total	1315018	209435	1105583
Average	263003	41887	221116
Amount put down in the Tender			206000
Difference			15116

40 - Their offer is consequently 14,500 Rs. under the net Revenue of last year and an increase of only 9,000 Rs. instead of 24,000 over the average of the last 5 years.

41 - Mr. Edwards attended here in person and on this being pointed out, stated that the Firm were prepared to adhere to an offer of an increase of 24,000 Rs.

over the average net Revenue of the last 10 years, 1861/62 being an exceptionally high year

32 — The average excluding the items named *upon the trade of other articles in the same spot with* Soda dy — 268-11-5 in the Margin is Rupees Contracts of Mat-Makers — 295-11-11 2,11,337-8-11 (Vide appended Sale proceeds of withered Date trees — 225-12-2 table) and the tender Sevoy Jummah Taxes &c — 4,32-2-3 therefore would amount

Sol'd 1,222-3-9 to 2,35,000 per annum which seems a fair offer as it leaves in pounds numbers a margin of about 10,000 Rupees profit compared with the net revenue of last year, the largest ever realized.

33 — I beg therefore to submit the subject generally for the instructions of the Commission, only observing that I have not thought it necessary to refer to the possibility of obtaining a higher rent by advertisement of the Akhar Contract as the opinion expressed in your letter to the Superintendents of Puzgur conveys the Commission's view regarding the principles of action in such cases.

34 — I request that the tender and Certificate herewith forwarded as above mentioned may be returned to me when

no longer required in your Office, and that
you will inform the Commissioners that
should be approve generally of the proposal
I shall obtain a formal tender accord-
ingly in lieu of the present one.

I have the honor to be
Sir

Your most obed^t Servant

A. H. Hall

Season

Table of the fall of Rain

Years	As kept by Capt. Puckle 1854-55	As kept by the Mills 1855-56	Difference	
			Increased	Decreased
1859	25.5	19.9		5.6
1860	33.2	34.5	1.1	
Difference being increased	7.9	14.6	7.1	5.6

I have the honor to
transmit for submission to the
Commissioner the Tabular
Statements noted in the margin
exhibiting the Revenue Settlement
of the Bangalore Division
for the year 1860/61.

As the character of
events and continuance of the
necessary Rain it is to these
points that attention must
be principally directed. The
periods during which Rain
should fall to constitute what
is considered a promising
season for the Kharif crops
extends from May to June
while the Rains of September

are mainly relied on as affording a
supply

Supply to the Tanks and Reservoirs by which the Irrigation crops are irrigated. Light Showers are desirable in October and November to mature the Raggy crops after the Grain is formed in the Ear.

3 The Registers of the fall of Rain are not yet kept with sufficient accuracy as is apparent from the variations between the Table in the margin of the fall of Rain in the Town of Bangalore as shown by the Register kept at the Division, Cutcherry, by Captain Puckle and that furnished by Talook Officials but a tolerably satisfactory view may be attained from them of the general character of the season.

4 The following Table exhibits the average monthly fall of Rain during the last two years and the yearly fall in each Talook.

Monthly falls

Month	No. kept by Capt. Puckle		No. kept by the Talook Officials		Difference

There

5 There is a trifling increase on the Rupee of last year, but on the whole the season has been an unfavorable one.

6 This is best evidenced by the great falling off in the Butayee produce which realized this year Rupees 443,983 13-4 against 862,371 9-6 last year, being a net decrease of Rupees 418,387 12-2. The actual yield on the same extent of land, being 23 per cent less than that of last year.

7. The prices of the principal staple grains exhibit a great rise over the prices prevailing in 1856. Rice and Ruggly having sold during the year at rates nearly double those of 1856/57 and approximate generally to those of 1858/59.

Settlements Villages

8 The Division contains

	Rodee		Total		
	Abs	Tyran	Total		
1. Amil. Illa. Ha. or Datta	5150 1/4	6831	6976 1/2	3005	9981 1/4

4. Surramanien	105	142	218	29	247
Total	6135	5585	8489	3231	11,720

22 principal and 5 Sub Talooks. The latter being the minor Talooks attached to Bangalore in which are comprised 11,720 villages as noted in the margin.

The presence of an additional Assistant enables

The Superintendent to delegate portions of the Talooks for Settlement to Captain Able and the Summabunage of the whole was scrutinized on the spot by the Divisional establishment an arrangement which has now been found practicable, hence it has been ruled for the Superintendent to make a personal settlement of portions of the Division, in alternation.

The settlement for the year Rowone including

including all items of revenue amounts to 27,21,889-3-9. which is a decrease on that of Sidhartee 1859/60. of 3,23,202-13-7. arising principally from the great falling off in the Butayee produce noticed as above:-

10 The prevailing high prices however have stimulated cultivation, and the revenue of the present year rises higher than that of any previous year. Since 1834/35 excepting 1859/60. while the Jummabunsee is an increase of 3,42,928-3-11. on the average Jummabunsee of the last 10 years.

11 The following Diagram exhibits the several branches of revenue and the amount realized by each for the year under reports as compared with the preceding year.

Number	Items of Revenue	Amount of the Jummabunsee 1859/60.	Amount of the Jummabunsee 1860/61.	Difference

	Det. Decreased			"	3,23,202 13 7

12 Having stated the general results of the settlement I shall notice the several sources of Revenue in detail -

13 The Land Revenue is classed under Land Revenue two heads Sugagah or money assessments and Butayee or divisions of the produce. Under the former heads

is included. The Revenue derived from Jodees and Boyem, Gootha Villages and both kinds are subdivided into four items.

- | | |
|--------|------------|
| 1. Dry | Sugar cane |
| 2. Wet | Gardens |

II. Shigdigatz. 1. Dry. 14. The settlement of the aforesaid Dry lands is very satisfactory, as the extent under cultivation shows an increase of 3900 Baishees equivalent to 54,570 Acres and the amount of revenue derived exhibits a rise of Rupees 65,000. This increase which is partly nominal and partly real, arises principally from the conversion of Buttajee into Cundayem, with a counterbalancing reduction by conversion of the Cundayem into Buttajee, and secondly from cultivation of waste lands. The preference exhibited for the Cundayem over the Buttajee tenure and the expansion of cultivation is no doubt referable to the present high prices of grain and cannot be regarded as permanent.

15. The remaining variations in the increase and decrease, which are shown in detail in Table below are unimportant and one item only appears to call for notice.

16. The term "Karakanikee" is applied to a direct tax levied from Ryots, who do not cultivate Buttajee lands. It is not universal throughout the Division or even throughout the Talook nor is it enforced except from those, who have habitually paid it. It seems to have been introduced as a penalty to induce the cultivation of the Buttajee lands and might be advantageously abolished as a needless and artificial stimulant to cultivation.

2. W.A. land 17. Assessed in money. This item also exhibits a favorable result as regards the extent of land ^{under} cultivation which shows an increase of 93. Canches and 7 3/4 Crores on 193 Acres over that of last year. but there is a

decrease

decreased in the amount realized of 2694-3-5. This is mainly explained by the fact that the extent of land converted from Buttares into Curdayem is more than double that reverted to Buttares, while on the other hand owing to the different supply of water for the Vyank crops. The extent left uncultivated exceeded the waste cultivated. A large decrease appears also under the head Fiscal Curdayem. The falling off under the latter head cannot be regretted as it is the result of a liberal and judicious concession by which the higher rates formerly levied on Dry lands if cultivated with wet crops are no longer exacted when the crop is dependant entirely on the annual fall of rain and no artificial irrigation is supplied to compensate for a def. of moisture.

18 The enclosed Table explains the various fluctuations in detail.

3. Sugarcane. Affected in money 19. The failure of rain has operated disadvantageously on this branch of the revenue. The accounts shewing a net decrease of ⁶671-2-15 ¹⁶ or 973 acres in extent and a decrease of revenue amounting to 15,736-4-9.

20 The principal causes of decrease are the crops of the land reconverted into Butayee, over that transferred to Cundayem from Butayee, and the great extent of land reverting from sugar to other descriptions of cultivation, compared with the extent newly planted.

21 The following Table will supply all additional information required.

Totals	3289 7/10 32823 15/2

4. Gardens lands. Assessed in money. 22. There are 3 descriptions of Gardens.

1. "Drooperoo" or permanent plantation.
2. Shulberry Gardens.
3. "Chiller" Vegetable Gardens.

23. The assessment on the 1st is based on 3 different modes.

1. On the Extent of land.
2. On the number of trees.
3. Harnee Ezara - in the proportions in the margin.

The 1st being calculated by the Govdoo -

The 2^d per 100 Trees and the 3^d having rather

The character of a Butayees sale than a direct money assessments as it consists of putting up to auction the right to collect the Sirkars share of the crop - Most of the gardens of every description are artificially irrigated by wells and are therefore less liable to suffer from the failure of rains than irrigated lands or that watered only by Tanks.

24. There is a net increase in the amount of revenue derived from gardens of Rupees 1445-11-4 a large diminution in the extent of land in the item of permanent gardens is owing to a clerical error in the accounts of last year which it has been necessary to rectify in this manner.

Ans

25. On the whole the conversions from Buttaeye to Cundayem are nearly double. Those of Cundayem to Buttaeye the waste land taken up on Cundayem exceed those left waste by nearly 56 percents in extent and 72 percents in amount and the general result is therefore favorable. The above remarks will sufficiently explain the following Table.

	Permanent Garden		Vegetable Garden		Shrubbery		Coffee Garden		Total Baguette

Net Increase							792 10 5	

It is a pity such tabular statements should be of no value for the general purposes of the Govt. directed in the present year.

1. Parabatotee and other Jodee Inam. 2. The increase on the 1st item is to a great extent nominal, while a small portion only is really real.

Transferred from the 3d item being the amount of Jodee collected from Surwamara Gramas in the 3 created under Jodee villages — 376-9-1.

Transferred from Dry lands being the amount of Jodee upon "Mahul wade" Villages — 80-4-11

3d - Transferred from Chiller Rajabail as hereinafter detailed — 1145-13-8

1602-11-8

A. This includes Rs. 7-5 increased in Hootanulee of "Hazaru Ragghee".

* This also includes Rupees 54-13-6 decreased in the Hootanulee of "Hazaru Ragghee" for the present year viz. Hazaru Ragghee — 30-14-11, Shroff Wari lands — 16-14-5, Gondoyas — 7-11-2.

54-13-2.

Reals

Jodee levied on Inamates lands cultivated this year (these are the Inam lands conditionally given that the Jodee is leviable only when the lands are cultivated) —

Totals — 1719-2-3.

Deduct Decrease —

Jodee on the Inamates lands left wastes this year as per conditions of Grants — 592-6-3

Net Increase — 1126-12-11

The

The 1st and 2nd items of nominal

increases require no remarks.

29.

The 3rd consists of the following items which as per orders received from the Commissioners Office are for the present year transferred from Chiller Bajabob.

1. Sanaya ————— 256-4-4

2. Deokhoul Kurnee ————— 120-4-6

3. Wazun Ragghee ————— ^B 401-7-5

4. Shroff Courtana ————— 30-4-1

5. Gondogai ————— 337-6-4
1145-13-8

B Transferred from Chiller bob ————— 401-7-5

Increased in Kootawa lee ————— " - 7-5

401-14-5

30

"Sanaya" is the "miraf" formerly given to Kobby Shanbagues not now in existence. at $\frac{1}{4}$ to $1\frac{1}{2}$ boodoo each Ryots. This is now commuted to money payment averaging from $\frac{5}{16}$ to $15\frac{3}{16}$ Fanams a Ryots. This only exists in parts of the Bangalore Talook.

31.

"Deokhoul Kurnee" is also a "miraf" formerly given to "Deokhoul Kurnee" and resumed long ago during His Highness of the Rajah's administration and since credited under "Chiller bob". This exists in the 4 Talookes marginally noted in the 2 first of which it is levied at $\frac{1}{4}$ to $1\frac{1}{2}$ Fanams a Ryots in Greenwaspoos at $\frac{1}{2}$ to 1 Candy in kind on each of the Beetel leaf garden and in Gorbisnore at one maund of jaggery on each of the Jaggery manufacturing.

Colours.
 Moalwagah
 Greenwaspoos
 Gorbisnore

32.

"Wazun Ragghee" exists in 4 Talookes. Oosattah, Goomaikerpalliem, Goodibunda and Deonully. It is a "miraf" paid to "Lohur" formerly and resumed and credited to Government as in the two former cases.

It is levied at the following rates.

Oosattah. in money at $\frac{1}{4}$ fanam a Ryots.

Goomaikerpalliem. in grain at 3 boodoo a Ryots.

Goodibunda and Deonully. in money at $\frac{1}{2}$ to 3 fanams a Ryots.

Shroff

"Shraff twitana" is likewise a "miraf" and exists in the Behringul Taluk.

"Gowdoyas" is also a "miraf" formerly given to Gowdahs and exists in

Bangalore.

Calais

Goribidnored and

Goodmishah

All these taxes were included in the detailed list of Chitturab formerly sent to the Commissioner who in abolishing almost all other taxes, directed these items to be transferred to this branch of the Revenue. Jodee lands granted for Chitturums Dec. 36. The whole of the increase in the 2 items Jodee lands is the increase of Jodee assessments on lands granted on Praya. The following are the details of the Jodee entered under this head.

	Extent of land granted	Total Assessment of the land	Deer & Inams	Balanced Jodee.	To be hereafter brought to light as lands in Praya
1. For Building Chitturums	236 17 8 1/2	1474 2	1327 2 2	136 2 8	8 11 8
2. Ditto Bowries	17 16 11 1/2	136 14 7	107 5 9	21 12 11	1 11 11
3. Planting Trees on the Road side	94 19 8 5/8	663 4 7	331 10 4	123 5 4	208 4 11
4. Ditto Taxes	116 13 1/2	942 8 7	471 4 -	298 8 1	172 10 6
Totals	465 14 10 1/2	3208 11 3	2237 6 3	579 12 8	391 9 -

* Transferred to Coymootha Village in the year Subasiroth 1843/4 as per Commissioners Order letter No 65 dated 15th April 1843.

Jodee Inams granted in the 37. The Grants made on this account in the present year are very few being only 38 are noted in the margin.

1. Bheemroyals	4-16-"	34-14-7	Chitturum.
2. Humminth Bow	5-17-3	34-14-7	Trees on Road side
3. Krishnamoorthy	6-11-"	34-14-7	
	16-10-2	104-11-9	

Of which payable to Government in Jodee } 52-5-9.

Balanced Inams 52-6-"

The total amount hereafter takes credit to Government as per terms

of lease (Praya) is Rupees 391-9-11 of which Rupees 8-11-8

was in the year 1843/44 transferred to the item of boyengootha, leaving Rupees 382-14-8 to be hereafter brought to account.

39 The two branches of Inam joree lands are included in the Amil Illakas of the Immabunsee, while the remainder, two 3rd joree villages & 4th boyengootha villages - are separately entered in the annual accounts.

Joree Villages. 40. In the 3rd item there is a decrease of Rupees 376-6-1. in the present year which is only nominal being a transfer made from this to the 1st item as therein explained, as per orders received from the Commissioner's Office above quoted.

41 There are altogether 981 $\frac{3}{4}$ villages including Dakhlee villages in Joree.

Boyengootha Villages. 42. There is an increase of revenue of Rupees 11-10-2. will be noticed; it is the amount of boyengootha condagams remitted in Doormakee 1836/37. which is now added, it having been proved that there is no loss in the villages as alleged and on which pretence the remission was first obtained.

43. The Boyengootha villages amount to 540. including Dakhlee villages.

44. No village is now a day given in the term.

Inamatee or rent free. 45. Besides the 4 kinds of joree and other lands, there are others held on rent free tenure and styled Suramamunee. Part of them vizt "Joree Inamatee" appears under "Deductions" in the Immabunsee accounts sent to the Commissioner's Office. The rest are not shown in the account. They are styled "Stall Inamatee" and "Bagar Inamatee" a detailed list of the former was sent to the Commissioner's Office in 1842 to 1846.

Inc

46

In a financial point of view, the Sugarcane settlement may be considered on the whole favorable; as there is an increase of Canes 3627. 4. 0 in extent of land equal to 31,052 acres under cultivation and a rise in revenue amounting to Rupees 49,145.

47

This result may confidently be attributed to the impetus derived from high prices and much to forced cultivation.

48

The following abstract comparative statement will convey a general view of the Sugarcane settlement of this year, as compared with that of last.

	S. & H. 1859/60		Revenue 1860/61		Difference			
					Increased		Decreased	
	Extent	Amount	Extent	Amount	Extent	Amount	Extent	Amount

Buttapes Dry. 49. The prospect of the Dry crop Buttapes revenue appeared favorable with reference to the extent of land under cultivation; as the account shows that a greater breadth of uncultivated land was taken up than was relinquished, and the great decrease was nominal rather than real as it was occasioned by the conversion of a large extent from Buttapes to Cane. The influence of the adverse season has however been felt as is shown by the diminished produce yielded this year by the land under cultivation as compared with the crop on the same land last year, the difference in value being a decrease of Rupees 31844-11-7.

H

at last year's prices, which is only slightly corrected by the enhanced prices realized during the present year, which were only equivalents in the aggregate to Prices 1860-6-2.

50. The following statement explains this in detail.

	Extent			Amount		
<u>Increased</u>						
Conveyance land converted into Buttrages	109	15	5 $\frac{1}{4}$	2170	11	7

Buttrages Tracts. 51. The failure of rains affecting both crops but principally the Vysak, renders this the most unfavorable feature of this years Jumnabundee. This was anticipated and noticed at some length in the Jumnabundee reports of last years misprospects of the season and the result has verified the apprehensions then expressed.

52. Nearly 16,000 banded of land representing a revenue of 333281-5-10. to which the newly cultivated land bears an insignificant proportion were left waste, the deficiency in the yield of produce on the land cultivated with Vysak crops is 85 percent on that of last year, while the compensation accruing from higher prices amounts

(to)

to 8 1/2 per cents as shown belows:

Butteyes 3. Sugar cane 53. The same causes have tended to produce a fall in the revenue derived from this source. A considerable portion of land was left unplanted and the out turn was not prolific. As an exception to the cases of the grains mentioned

mentioned above there has in addition been a fall of 4 percents in the average price of jaggery for which I am able to assign no reasons.

55.

The following is the general result of the Buttares settlement which although it may appear unfavorable, when contrasted with that of last year, will still bear comparison with the several summarized statements from 1850 to 1854 inclusive and does not fall far short of those of the following years from 1855/56 to 1858/59. The average of the last 10 years including Sidhartee is 465561-1-3. and excluding the last named years Rupees 421471-9-3. The former being 21577-11-11 more and the latter 22512-4-1 less than the present years summabundee.

56.

The Summabundee of this year includes a sum of 33546-14-7. belonging to the previous years, consisting of the value of certain Buttares produce and other items, which could not be valued before the accounts were closed on the 30th April, 1860. In the same way some items of the present years revenue remain unadjusted and will be carried to the credit of the current year. The amount of the latter has not yet been accurately ascertained but the estimated result is a balance in favor of Sidhartee amounting to 18853-12-11.

Under the head of Sans Revenue

is included, also the sum of 2,341-10-11 collected under the heads noted in the margin:-

Warakamika 1957-6-9
 - Soomakulloo 310-13-5
 - Kalagotta 21-3-1
 - Bhoonimoon 58-2-11
 Total 2,341-10-11

58. The effects produced by the changes in the various descriptions of tenure, nature, of cultivation, and extent of land cultivated result in a net decrease of 369,241-14-6. as compared with the Summabances of Sidhartee, which has been shown above to be occasioned by the great decrease in the Buttaee branch of the revenue compared however with former years it shows an increase of Rupees 6,1194-15-8 over the Summabances for the year Kalagotttee 1858/59. and increase of Rupees 168,326-"" over the average of the past 10 years..

Net Decrease				369241 14 6

59. The Sayer has been lately revised Sayer's and during the present year the duties have been collected as laid down in the latest orders on the subject.

60. The system is described as the levy of a simple ad valorem excise or Port duty at a certain rate of percentage on the 20 articles marginally noted, to be paid only once at the place of sale or exports.

61. It has been further observed that articles on which duty is now leviable are products which are either articles of luxury, export, or the use of which has increased conse:-

1. Earth Salt
2. Sesamum Seed 1st Sort
3. Ditto 2^d "
4. Castor Oil Seed
5. Tamarind
6. Chillies
7. Ghee
8. Coconut Dry
9. Ditto Fresh
10. Betel leaf
11. Ganja
12. Opium
13. Cotton

16. Timber
17. Bises
18. Rice Goods
19. Cow and white Blankets
20. Sheep and Goats

= 9 items

agents on the advancing prosperity of the country. Assuming as correct the theory that the consumer ultimately pays the duty, although it is held by some authorities that a difference exists in this respect between agricultural produce and manufactured commodities, the duty would in cases of exports be paid by non-residents of the Division, while owing to the system of payment being collected in one place only, the imports to this Division from other parts of Mysore, on which payment of duty had already been made would appear as collections to the credit of that District although the tax was really paid by the consumers in this.

62. Under this view the duty with reference to a single division operates as an excise duty strictly speaking only on those articles actually produced and consumed within the limits of the Division. It is a customs duty paid by the consumer on products brought for consumption from other Divisions whenever the duty has been paid in, and an exports duty on those removed from its not chargeable properly to the Division.

63. For these reasons no general comparative view of the results of the former and revised system is practicable in the case of single Division, as it is not possible to include the amounts which would formerly have been paid on imports from other Divisions these being now largely collected before transmission from the place of production. I therefore confine myself to those commodities produced and consumed in the Division, exported and imported from and to Her Majesty's Territories.

64. The articles on which duty is levied may be classified as.

Animals.

65. To determine the amount of
assessable ^{land} duty, a valuation list of fixed
prices was furnished from the Commissioner's
Office but the system was subsequently mo-
dified by the rule that the market prices
of each article on the 1st of every month
should be the standard of value except in
the case of

Opium,

Hides

Sheep and Goats.

Tobacco, Wine and Fishes

and Wardammies are specially taxed

66. The total amount of Revenue
realized by the Sayer during the present
year amounts to Rupees 231883-8-7.
being a net increase of Rupees 24674-9-9.
over that of the previous year as detailed
in the following statement, or Rupees
32925-2-5 over the average collections
of the past 13 years commencing
from 1867/68.

67.

The gross increase over the revenue of

the previous year is Rupees 4,32,74-11-1. but of this sum Rupees 18,578-1-8 is absorbed in balancing the remissions granted by abolition of duties on articles formerly taxed and in covering a diminution in the actual quantity of produce of the articles on which duty was leviable in the year under reports compared with the previous.

68

Taking this decrease of Rupees 18,481-14-8 as 100 the following are the proportionate amounts of these deficiencies -

68-7. For Cent is duty which would have been collected on articles now exempted.

20-3. For Cents arises from remissions of duty on Soap and from Staggur.

11-0. For Cents is an actual decrease in the quantity of produce paying duty compared with that of previous year, exclusive of the compensating sum realized by enhanced rates.

69.

Almost the whole increase is realized by the enhanced rates in the articles still paying duty - and the net increase over the revenue of the former year is 11-9- for Cents.

70.

Saying aside the amount of decrease by remissions, the important point for examination is the cause of diminution of the quantity of articles still paying duty as had an equal quantity paid duty the past year and the previous, the amount which would have been realized in the past year at the enhanced rates would have

have been Rupees 286950 as follows

Stores and stores	16880-""
Stores	93116-""
Stimulating drugs	26362-""
Raw materials	78453-""
Manufactures	66333-""
Animals	5806-""
<u>Totals</u>	<u>286950-""</u>

71. The bulk of the revenue raised under the head of Sayer is really paid by the Division as is proved by the following facts.

84.7. - percents of the whole was paid by the residents of the Division in various forms.

5.4 - percents by other Divisions.

9.9 - percents by non-residents in Mysore.

100.0.

72. That is to say 84.7. percents of the Sayer revenue was collected on articles produced and consumed within the Division or imported from other places for consumption within the Division.

5.4. percents on articles produced in the Division and exported to other Divisions.

9.9. percents on articles produced in the Division and exported to Her Majesty's Territories.

Excise. By which is meant the duty realized on articles produced and consumed in the Division.

73. Pepper and Cardamoms may be at once excluded as well as Cotton as none are produced

produced in the Divisions -

74. Among the staples necessities the greatest falling off in quantity is manifest in the case of Tamarind fruits, Chillies, and Castor Oil seed, which is satisfactorily accounted for by the unfavorable seasons and verified by the diminished Buttares and Amance produce.

75. In like manner in the instance of Cocoanuts and Betel leaf which are classed as luxurious similar results attributable to the same cause are to be observed.

76. There is also a decrease in the quantity of Opium and Silk produced - A larger remission has been granted in the case of Timber used by Ryots as building materials.

77. There is a decrease both in the estimated value and quantity of the manufactured goods produced in the Divisions the former of 8.9. per cent and the latter 6-8. per cent. - It would therefore appear that the price has fallen by 2.1 per cent being the difference of the above two proportions of decrease. The presumption would a priori arise that increased taxation would raise the price and might consequently contract the production. If the Official value be accepted as the selling price these data present the anomaly of increased taxation and a diminished production resulting in a fall of price, but as the Official value can only be considered a vague approximation to the actual selling price it is preferable to limit consideration to the other points viz the increase of taxation and the diminished production.

This

This fact then, is certain that the manufactures of the Division have been less productive to the extent of 6.8 percents.

79. This is possibly to be referred to the combined operation of the enhanced duty on Cotton and Silk to the deficiency in the produce of the latter, to the higher rates on manufactured goods, and partly perhaps to the Loom tax.

80. Taking the whole manufactured goods, which have paid duty during the year viz. those made and sold in the Division imported to it and removed from it then the diminution in quantity is 6 percents.

81. Financially the decreased production has been fully compensated by the enhanced rates of duty.

Exports to Her Majesty's Territories. 82. These consist principally of Tamarind, ^{Abolish} Betel leaf, Opium, Silk, ^{with} Hides and Piece goods.

83. The principal falling off is in Betel leaf, Opium and Silk and the causes mentioned when alluding to the consumption of these articles in the Division may be also taken as applicable to them as exports.

Imports from Her Majesty's Territories. 84. Every article pays a uniform import or Customs duty of 5 percents except Tobacco, which pays 8 annas per maund and 1 Annas the inferior -

85. The principal imports are Cotton, Tobacco, and Piece goods. There has been an increase in each item. as regards the amount of duty - and in the case of Cotton an increase in quantity.

quantity also shewing that the present duty is not calculated to check importations.

86. In Tabasco and Piece goods the quantities remain nearly the same, the enhanced duties affording an increased revenue as regards the latter, which is also satisfactory.

87. The following statement exhibits the comparison of the Sayer Revenue under the different heads of Customs and Excise duty, between the past and previous years.

	Summation		Summation		Difference	
	for 1859/60	for 1860/61.	for 1859/60	for 1860/61.	Increased	Decreased
Transit duties	45	18				
Exports to Foreign Country	17,466	16	23,042	10	5,576	04
Other Divisions	6,690	136	12,689	00	5,968	26
Imports from Foreign Country	85,734	82	95,440	37	9,705	15
Other Divisions	12,768	101	4,708	34		806069
Total Customs duty	122,660	13	135,849	89	3,189	143
Excise duty on Home produced Consumed	86,869	7	98,410	97	11,551	27
Totals	209,529	911	234,260	24	32,801	010
Gains in Hops	11	44	11	154

Deduct						
Geographical or charitable allowances	1,570	133	1,531	78		3957
Collections of Jodee Boyengoothe & villages	796	22	857	1560	153	
Total Deductions	2,366	155	2,388	91	60	153
Net Sayer Revenue	207,268	1410	231,883	87	32,740	127
Net Increased					24,674	99

Deductions 88. A few remarks may be added on the subject of deductions observable in the above statement.

89. The Jodee dars and others are entitled to the Sayer collections within their bounds but for several obvious reasons the management is undertaken by Governments, a separate account being opened for the same. At the close of the year the accounts are adjusted and in paying them the amounts

amounts collected, The average cost of the establishments is deducted and credited to Savi Jinnah as in the case of the Punjab hereafter noticed.

90. Several persons and Devestans received monthly certain charitable allowances from the Sayer Collections when it was under Contract; The same has been continued to the present times but these sums instead of being shown as legitimate charges are deducted from the Collections.

91. The deductions on this account in the year Parabava (1846/47) when the Sayer was for the first brought under amand management were as follows:

Name	No	Average Rates	Amount monthly	Total yearly
Devestans	110	0 7 8	52 8 8	630 8 0
Brahmins	557	0 3 2	116 10 3	1399 11 6
Total	667	0 3 9	169 2 11	2030 3 0

92. Of the latter 234 Brahmins who were receiving Rupees 42-0-2. have expired and their allowance therefore reverted to Government. There therefore remained at the close of past year (1860/61) 110. Devestans and 353 Brahmins in all receiving a monthly allowance of Rupees 124-2-9. Rupees 11-5-9. a head on the average.

93. The total amount disbursed under this head of deductions as entered in the above Comparative Statement amounted to Rupees 1531-7-8 or Rupees 39-5-4. less than what was paid in the previous year.

Summary of Sayer Revenue 94. The general results of the new Sayer System may be considered eminently

Successful

Successful as the inaugural year has been naturally
in unfavorable ^{under} ordinary circumstances
a much greater increase of Revenue would have
accrued, which may be confidently anticipated
in future. The increase has accrued in spite
of great deficiency of production arising from natural
causes only, without apparently retarding industrial
or Commercial operations except in the somewhat
doubtful case of manufactures, in which production
appears to have received a slight check. Whether
this is the effect of the new system of taxation or
of other causes not apparent, cannot be fairly
ascertained by the results of one year only, but it
may probably be concluded that if this diminished
production is occasioned by taxation it has
not arisen from the sole influence of the
Sayer duty on manufactured articles but from
the combined operation of several taxes.

95. The Punjab consists of Punjab
5 Stein's vol.

1. Jodhpur
2. Arrak
3. Gajah
4. Opium &
5. Shajun

96. The 3 last being classed as
Gajahs. These were originally farmed
on Contracts but in 1847/48. Great parts of
the Divisions including the Cantonment
of Bangalore was brought under Amree
management for the first time, and the
experiments having proved successful

— The

The System was continued. Up to the close of
 Rowree 1860/61 the 13 Talooks marginally noted

1. Bangalore
2. Ousehattah
3. Goudimahal
4. Devmully
5. Belwungah
6. Chinnapattam
7. Chosepall
8. Haintanahully
9. Annemul
10. Shagay
11. Horalgondroog
12. Gorbidunore
13. Chater Bullapoor

have remained under amand
 but it has lately been deter-
 mined to revert to the Contract
 system and tenders have
 accordingly been accepted
 for renting during the
 current year all the Talooks

of the Division with exception of Bangalore -
 a separate Contract having in view the supply
 of a pure description of Arrack to the inhabitants
 of the Cantonment, was entered into with the
 Paulhully Factory for reasons detailed by
 Major Dobbs in his letter of 375.9/10 Nov 1860

97. The Talooks of Chittleroo
 appropriated to this Division under the late
 system have been relinquished consequent
 on this arrangement. The Distilleries have been
 closed and the establishments reduced -

98. Under amand management the
 revenue has steadily risen as will be seen by the
 Statement noted in the margin which shows

No	Years	Total Amount of Revenue	Deduct cost Per Year	Net Revenue	Increased over Previous	
1	Plavungah	9	304,683.7	82,182.15	222,501.77	7,502.05

an increase in
 every branch. The
 increase in the
 item of Toddy is
 attributable to the
 care taken for the
 preservation of the
 Trees by preventing
 premature tapping and certain precautions
 against

against similar destruction will be continued.

99.

The exertions of the Head Seristadar Sooruppal in this Department have been noticed by Major Haimes and it is to be hoped that the change in system will present a favorable result as have followed from Amianee management.

100.

The Punjab of the Surramaniam Jodee and Boyengootha villages is included in the revenue drawn by the beneficiaries of the several villages.

101.

In the Amianee Talooks the collections are made by the Government's servants and refunded after deducting the average cost of Establishment $\frac{1}{100}$, the deduction being credited to the Sevo Jamma.

102.

In the rented Talooks the holders of such villages are allowed to collect the revenue themselves.

103.

The amount of this year's Jummabundee of the Punjab is as follows.

Total Jummabundee for the year Nowaree 1860/61.

Amianee Talooks. Ezara Talooks.

455490. 9-1. 61399. 11-2

516890. 4-3

— Deduct. —

Net collections of Jodee & Boyengootha villages 1366. 6-5.

Average cost of Establishment $\frac{1}{100}$ credited to

Sevo Jamma ————— } 1375. 14-2

2742. 4-7.

Net Jummabundee for 1860/61 ————— 514147-15-8.

The

104. This is compared with the
 Siminabances for Sidhwa 1859/60 gives the
 following results:

		Sidhwa 1859/60.			Powder 1860/61.			Difference

Ganjah	26. 2. 10
	6447. 6. 6.

Net Increased	51571. 7. 4
---------------	-------------

106.

In the items of Today the result has been a net decrease of Rupees 457. 13. 4. which is very trifling bearing less than Six Annas per Cent, whereas the increase in Orruck and Gurjah is very great, the former being nearly 16 percents and the latter, more than 21 percents on the Jummabundees for Sidhartee 1859/60.

107.

On the whole the net increase is 11. 15 percents on the past year's Jummabundees.

108.

But in order to make a fair comparison between these two periods it is necessary that the expenses of both years be compared, since the increase in hootawalee should keep pace with the cost of making and distributing Orruck &c. The following Table exhibits the comparisons:

	Sidhartee		Roorkee		Difference			
	1859/60.		1860/61		Increased		Decreased	
Pay of Establishments and Sadilwars	29,790	12 1	22,095	7 7			7,695	4 6
Cost of Orruck &c.	98,989	11 5	120,038	3 10	21,048	8 5		
Totals	128,780	7 6	142,123	11 5	21,048	8 5	7,695	4 6
Net Increase					13,393	3 11		

109.

The Decrease in the pay of Establishments and Sadilwars and increase in the cost of Orruck, are owing to the abolition of some Orruck Harkanales and purchase of the supply from a European Contractor.

110.

By deducting the net increase of expenses from the net increase of income, the real net increase in the Revenue amounts to Rupees 38,218. 3. 5. or a little more than 8 percents.

The

Collections of Amara Talooka

For Powder 1860/61 2552.90. 9. 1
Expenses - Dito 142133. 11. 5

Net Collections 313356. 13. 8

Collections for Paraburn 167041. 2. -
Net Increase 146315. 11. 8

111. The collections of Amara Talooka minus expenses, if compared with those for 1846/47, when they were under Contract exhibit an increase of Rupees 146315. 11. -

3 8 1/2 per cent marginally noted. In 1859/60. It has been 61 per cent.

Shohatufaz 112.

The year is marked by the introduction of the revised Shohatufaz System as laid down in the Commissioner's Circular 29 of September 1860 with the modifications enjoined in letters marginally noted.

113.

The Tax is leviable annually under the following heads.

1. House Tax
2. Loom Tax
3. Shop Tax
4. Still Tax
5. Plough Tax

114.

It has superseded various miscellaneous and arbitrary Taxes upon separate castes, classes and individuals payments of hearth money dues exacted from Petty Shopkeepers and Traders, rents of Market Stalls and booths and impact on Mills at work.

115.

Exemption from house tax has by directions received from the Commissioner been continued to those individuals who by ancient customs have hitherto been entitled to it. To these have

Letter No 250 of 15th Sept 1860 -
Letter No 157 of 10th Oct 1860 -
No 165 of 11th Nov 1860 -

have been added, widows, cripples and other persons in similar destitute circumstances.

116. The list in the margin shows the classes who have been either wholly or partially exempted.

117. When an individual belonging to any of the 5 classes carries on trade, he has been regarded as liable either to Shop tax, or to discretionary house tax.

118. Ryots paying Plough tax, and Weavers paying Loom Tax, Nos 6 and 9 were in some instances held liable for house tax, also up to last year. They are now exempted from payment of the latter.

119. Shetys and Ejimans both of the mercantile and manufacturing castes have in virtue of their Office been allowed remissions to various extents according as their claims were established by evidence and accounts.

120. The Shambagues of Bangalore in consideration of their services in collecting the Chototurfu enjoyed certain perquisites which consisted of allotments of certain shops and houses as also various payments constituting an additional rate levied from some of the inhabitants, which have now been discontinued and the Shambagues remunerated by a percentage on the gross collections under the new system.

121. In applying the classified rates

1. Brahmins
2. Musoulmans
3. Christians
4. Dancing Girls
5. Joghies and Janguns
6. Ryots paying Land tax, & Ryots in clearing market garden.
7. Shetys
8. Ejimans
9. Weavers paying Loom Tax.
10. Government Servants
11. Rajpoots
12. Shambagues
13. Widows

X rates into which the Mohatarfa Tax is divided, the general ^{guiding} principles kept in view with regards to houses and Shops have been to estimate approximately the size and description of houses. The circumstances of the owner.

The nature and the extent of the trade carried on and the Tax thus operates as a rough substitute for an Income combined with a professional Tax.

122. The objects of the Plough Tax being the improvement of the Roads it is so far as the Division is concerned a Tax for local objects not included in the general Revenue of Mysore.

Houses Tax: 123. The system of classification furnishes 36 rates for each class of house the latter being divided into.

- Terraced
- Tiled and
- Thatched.

Shed-roofed houses are charged as Thatched.

124. The rates vary as follows.

- Terraced houses — 3 Rupees to — 12.
- Tiled — Ditto — 2 — " — to — 9.
- Thatched — Ditto — 1/2 — " — to — 7.

125. The owner not the tenant has invariably been recognized as the payer.

126. The accounts shew as follows The revenue collected under this head of 6,566-10 payable on 12,308 houses which is liable to modification as part of this consists

consists of remissions granted on accounts of
Soom Tax being charged and will be shown
in the Statement of the general result of the
Shohotatfa Taxes but the principal decrease is
real, resulting from the loss of the Sundry Taxes
abolished and from the exemption of the
cultivating classes. The total sum realized
is Rupees 36,920. . . . 6.

127. The adjustment of the rates
on the houses previously taxed produced an
increase in revenue of 6,477. 6. 8. or 28. 6. percents
on the former rates, the ^{average} rates being increased
from Rupees 1. 0. 2. to 1. 4. 9.

128. The imposition of the tax on
houses formerly free has yielded Rs 7,709. 15. 1.
being an average rate of 1. 0. 8. Rupees per house.

129. The number of houses assessed
up to last year was 42,139 charged on an average
a fraction more than 1 Rupee each. In the
current year 19761 houses were exempted
from tax for various reasons - 7,607 houses not
previously liable now brought under taxation
by the new rules, the exact number paying
tax for the year now being thus 29,831
at an average rate of 1. 3. 10.

130. The incidence of this particular
tax is therefore 20 percents higher on each house
than that levied in 1859/60.

131. Generally speaking no difficulty
has been experienced in remodelling this
branch of taxation but there is no doubt that
the present settlement will require annual
revisions.

Looms Tax. 134. This tax has yielded an increased Revenue of Rupees 6152-11-4. The greater proportion of which has been produced by increased rates charged on Looms already paying small sums. The increase amounts to 30.7. percents on last year's Jummabundee.

135. The rates originally determined were 12 in number ranging from a maximum of 9 to a minimum of 1 Rupee viz.

In Town—9-6-3

In Towns—5-10-2

In Villages—4-10-1.

136. But subsequently Major Dabbs was induced in consideration of the depressed state of this branch of manufacture to recommend the suspension of the $1\frac{1}{2}$ rates which was sanctioned and the tax has therefore varied from 4 to Rupees 1 per Loom.

137. Looms in this Division are of the following descriptions:

Soalies

Bulgees

Blankets

Waist-bands

Tappettes and

Carpets.

138. On all of which the tax has been levied in full on one Loom, a charge of $\frac{1}{2}$ the rate payable being made on the others when more than one is kept.

139. The following Diagram shews numbers of each description on which the tax has been paid during this year.

Number		Rate		Amount	
8		4	32		
1256		3	3768		
2604		1 1/2	3906		
4377		2	8754		
1947		1	1947

Salt puttee	77	"	1.14	84	
Carpets	46	"	3.00	138	
Sooms paying, &c	10	"	1.48	2	14 7

140. The effects of the revision of the tax as regards the present payers has been an increase of 17 per cents on the amount formerly paid by them as follows: under this head

141. The number of Sooms on which Soom tax was paid before this year: Rowree was 16251 of these 1005 have been now exempted and the tax has been imposed for the first time on 2942. Thus the number charged during the year is 18188.

142. The former average rate was 1.3.9. per Sooms, the present is 1.7.0

143. Of the gross revenue being 2320.15-10. was derived from Sooms not formerly taxed and 9124.9- from the charge of high rates.

	1859/60.		1861/61.		Difference			
	No of Sooms	Amount	No of Sooms	Amount	No of Sooms	Increase	No of Sooms	Decrease
Soom Tax	16251	20038	18188	26190	1937	12805	1005	6652
Spd Increased						6152		

The particulars of Increases and Decreases are hereunder given.

Increases			Decreases		
Particulars	No. of Sooms	Amount	Particulars	No. of Sooms	Amount

			Total	1005	6652 13 4
Net Increased	1937	6152 11 4			

Shop Taxes. 144. The increase of Revenue obtained under this head by the enforcement of the present system is one of the most favorable results of the new assessed Taxes.

145. The commercial classes are universally admitted to have hitherto contributed less in proportion to their means and the benefits they derive from Government than the rest of the community and it is therefore satisfactory to observe that the new rules include many who have hitherto probably been entirely exempted from taxation.

146. There is a net increase under this head of 16187. 6. 5 and 682 Shops have been for the 1st time brought under taxation.

147. By the classification adopted Shops were divided into.

1. Ware houses
2. Shops for the sale of Piece goods.
3. Miscellaneous Shops.

The latter embracing all not included the two firsts.

148. The same sub divisions laid down for Houses and Sooms were rendered applicable

To

Thryocellanconus — 2 4.15.

150. The same system will be extended hereafter to the Cantonment where it has not yet been introduced. I may here remark that the total additional ^{proportion of} collections in the Town of Bangalore amount to Rupees 20263-4-5. The adjustment of old rates and imposition of new was very carefully carried out by Captain Puckle, to whom this duty was entrusted, and the comparatively small number of appeals against his decisions is good proof that the duty was judiciously performed.

Mowad Houses			Pier good Shops			Miscellaneous Shops			Unoccupied or repaired Shops			Total			
Number of Shops	Rate	Amount	Number of Shops	Rate	Amount	Number of Shops	Rate	Amount	Number of Shops	Rate	Amount	No. of Shops	Amount

Net amount of Receipts levied from several Religious Shopkeepers in the Bangalore Town as follows Levied on fathers held at. Awarded in the Shoolwajul Talook												345.3	9	9	
Total												6339	30493	8	10
Last years Annual amount												5657	14306	2	5
Net Increase												682	16187	6	5

152. The amount of revenues drawn from this source during the past year is 30493-8-10. which is a net increase over that of Sidhantee of Rupees 16,187-6-5 being a rise of 113 percent, exclusive of 2,900 Rupees remitted nearly $\frac{2}{3}$ of which latter sum consisted of items abolished under the Commissioner's instructions.

153. This large increase is obtained principally from the readjustment of the former rates which are increased on the whole 90 percent, but as above remarked 2682 shops have been taxed for the first time. The total amount of increase is Rupees 19,514-2-6 of which Rs 3891-15-3 is derived from shops newly taxed, and Rupees 15622-3-3 from increased rates.

154. The former rates averaged 2-8-5. The present have risen to Rupees 4-13-. As in the case of ^{the} House tax, it is probable that great inequalities in the distribution of the tax still exist and that the tax have been brought to bear with more pressure on some of the minor shopkeepers, which defect can be only corrected by time and investigation, but on the whole the revision of the Shop Tax, may be pronounced a successful step towards equalization of taxation.

Details of Increase and Decrease are as follows.

Increased			Decreased		
	No. of Shops	Amount		No. of Shops	Amount
Brought newly under taxation	1080	3412 9 9	Also conveyed or died	160	133 10 1
Paying Bazaar up to last year	48	81 12	Shops shut up & included in house	375	368 12 9
Persons carrying taxed in their houses	173	289 6 4	Charged with house tax, there being no shops	370	15 9
Increased in the rate	---	15622 3 3	Remitted no shops being in consequence	93	81 13 8
Transferred from Chiller bali	10	108 3 2	Put under & abolished	---	1909 10
Total Increased	1311	19514 2 6	Decrease in rate	---	461 13 10
Net Increase	682	16187 6 5	Total Decreased	629	3326 12 1

Oil Mill Tax, 155. The Oil mill tax under the new system appears on the whole to be an exception to the rest of the Shohatunfa as the tax has been considerably lightened by rates lessening the total demands under the adjustment of the rates formerly levied direct on mills the increases and decreases seem nearly to balance each other - 64 mills have been newly assessed but the amounts insignificant. - The imposition of a tax on mills when at work by which some were very heavily assessed has been superseded by the present direct assessments on such mills.

156. The amounts as shown below exhibit an increase of Rupees 3346.2-10, but several circumstances tend to modify this statement. It contains in any items of transfer from one branch to another resulting from the fact that collections had already been made on the old system previous to the introduction of the new on the 1st October 1860 and these collections have been credited to the Chillerab, remissions being granted to the payers.

157. From this circumstance this tax cannot be considered to have yet appeared on a complete form and a consideration of its results will be appropriately deferred to the close of another Jummabundee

Net Increase								19119	10 7			

160. There is then have therefore under the new system yielded a gross revenue of Rupees 97,764-5-3. being an increase of 19,119-10-7 on that of Sidharter (1859/60) or with the deductions on accounts

accounts of the transfers alluded to in, as affecting the amount paid on account of, Oil Mills Rupees 20016-2-7. Plough Taxes. 161. The alteration in the Plough Taxes consists in the substitution of universal taxes levied on each Plough at graduated uniform rates, for a partially imposed and fluctuating one charged on the individual, and payable in some instances in money and in others in kind.

162. The maximum and minimum rates are 6 annas and 2 Annas according to locality.

163. The Settlement for 1859/60 was as below.

	Total number	Of which charged with Plough Taxes	Highest	Lowest	Plough Taxes levied		
					In cash	In kind	Total
Talooks in the Division	22	15					
Habbes in the 15 Talooks	187	114					
Villages	3486	1445					
Cultivating Ryots in D ^e	99766	14610

2. Moalwaagul	5	Sillagaint			4986 13 7	2079 7 8	7056 5 3
3. Sreenawarpoor	6	Gornnakeapallam					
	7	Goodibundah					

164. In the Jummabundee now under review the tax was collected on 14,057 Ploughs which is the number shown by the Khamshoomari accounts to exist in the Division, after deducting those of the Jumm villages.

165. The total sum realized is 19,598-7- The increase over the Jummabundee of 1847 being 14,611-9-5 part of which however is nominal resulting from a transfer of 2118-12-1 from the Chiller bab and Land Revenue.

166. The subject appears to require no further remarks and the following is the comparative statement of Plough taxes for the past and

and previous years.

	Number of Ploughs	Rate per Plough	Amount
Towns	73	6	27 6
Bushes	4736	4	1184
Large Villages	22,697	3	4255 11
Small Ditto	113,057	2	14131 6

Abandoned or died 150-8-8

Decreased in rates 1827-5-1

1977-13-9.

Net Increase 14611-9-5

168. This heading was introduced Farms and
on the abolition of the Chillerbal and Licenses
consists of the following contracts formerly
included

included in the latter.

- 1—Sac Contracts.
- 2—Pasture land Contract (Hoalgavul)
- 3—Honey.
- 4—Ferry.
- 5—Forest Peppers.
- 6—Wild Cardamum.
- 7—Iron furnace Taxes.
- 8—Earth Salt pan Tax.

169. Nos 5 and 6. do not come in this Division but an additional item vizt "Gidjavul" a tax on all Single Timber, and Bamboos, except what is required by Ryots for their own building purposes is added.

170. The settlement under this branch of Revenue exhibits a net decrease of Rupees 1519-7-1 as detailed below.

	Summation for 1859/60			Summation for 1860/61			Difference	
							Increased	Decreased
Sac Contracts	9	10		10	9	0	180	
Hoalgavul	21,427	3	7	20,450	10	1876	128	2857
Honey Contracts	155			163			8	
Ferry	1	11	11	1	11	11		
Iron furnace Taxes	766	8	15	1299	13	250	16	398
Earth Salt pan	1890	3	4	1274	13	8117	31	732
Gidjavul	4446	15	11	4680	5	61082		848
Totals	304,794	2		28,959	13	13312	13	4831
Net Decrease								1519 7 1

171. The amounts are so trifling that it is only necessary to remark on the 2nd, which shows a decrease i.e. Hoalgavul. The decrease has

has been greatly but is principally the sum deducted on account of lands brought into cultivation - a measure more profitable to Governments - Failure of rains has been the cause of the decrease in the Earth Salt pan tax - The net increase on the whole is very small bearing a proportion of only 5 percents on the previous year's summatance.

172. The Revenue appearing under Chiller Bal. This heads consists only of the collections made previous to 1st October 1860 the date of the introduction of the new system. The Chiller Bal. has with this exception since then ceased to be reorganized as a revenue heading, the items comprising it having been partly abolished and partly distributed under other titles.

173. The sum so collected amounts to Rupees 3076-3-9. The amount appearing under different titles by transfer to other branches are as follows.

Transferred to Farms and Licenses — 30479-4-2.

—— " ——— to Land Revenue — 1437-1-8

—— " ——— to Mohatarfa taxes —

Houses ————— 17-14-7

Shops ————— 108-3-2

Shills ————— 2980-8-3

—— to Plough tax —

Plough tax for 1860 — 2,986-13-7.

—— Ditto collected in kind — 2079-7-8

————— 7066-5-3

to Stamped ————— 920-5-1

Total ————— 23009-10-2.

Ty

174. By deducting this from the total amount of collections or amount of Chillerbol in the years 1859/60 viz Rspees 74,961-3-7. There remains Rspees 31,951-9-5 representing the amount of items abolished. Of this Rspees 3076-3-9 are collections made up to 30th September 1860 as above stated. The net amount of loss incurred to Government by the abolition of the Sundry items therefore amounts to Rspees 28,875-5-8.

175. The financial result of the substitution of the new system of organized and uniform taxation for the miscellaneous impost of the Chillerbol as follows.

The Increase in the Motatorfa and Plough Taxes.

Room Tax ————— 6,152-11-4

Shop Tax ————— 16,187-6-5

Still Tax ————— 3,346-2-10

Plough Tax ————— 14,611-9-5

————— Deduct ————— 40,297-14-"

Decrease in the House Tax — 6,566-10-"

Sum transferred from
The Chillerbol, included in this
increase ————— 5,186-1-8.

Sum transferred from
Land Revenue to the Plough tax
also included in this increase — 39-4-5
————— 11,792-11-1

Balance not increased in the Motatorfa
and Plough Taxes ————— } 28,505-13-11

176. If this therefore be compared with the loss incurred in the abolition of several items of Chillerbol viz Rspees 28,875-5-8 the result will

with the decrease of Rupees 369-7-9.

187. However, had this new system been introduced in the commencement of the year, under reports the loss to Government would have been Rupees 2549-3-6. as hereunder explained:-

Loss as above ————— 369-7-9.

Collection, under Chillerbal up to 30th September 1860, minus the amount of mill tax that would have been collected is herein above stated ————— 2179-11-9.

Total loss: ————— 2549-3-6.

188 The Plough tax, being applicable to local purposes only, is not available for the general revenue of the country, but as a large amount was collected by the former system under this form and the present system only sets aside, for particular purposes, the increased amounts collected in a more definite way, it may fairly be placed to the credit of the Mohatarfa and it is therefore included.

189. In this place it may not be uninteresting to offer a few remarks regarding the changes in the incidence of the taxation on the population in general.

180. The Agricultural classes formerly paid partial house tax to the extent of Rupees 1256.1-11-9. and partial plough taxes amounting to Rupees 7066-5-3. making a total of Rupees 19,628-1-40. This has now been nearly balanced by the introduction of the uniform Plough tax, which amounts

to

to Rupees 19598-7-11 and the effects on the Ryots, so far as these special taxes are concerned is a redistribution of the same amounts over a greater surface.

181. The special taxation on the trading classes has nearly been doubled, that on the manufacturing classes has been increased 17 percents that on the oil makers has been relaxed and a sum of Rupees 7709-15-1 has been raised by house tax from miscellaneous small huts previously paying no that form.

182. Against this item stands the sum of Rupees 39,292-4-11 of miscellaneous taxes abolished, which is the bona fide amount of taxes remitted, and it is difficult to say how the amount was distributed among the various classes. The Ryots probably paid about $\frac{1}{6}$ or $\frac{1}{8}$ from which they have now been entirely relieved and they have therefore been gainers to that amount. The proportions in which the other classes paid the remaining approximate amount of Rupees 33000-0-0 cannot be stated without a more minute investigation of the details of the Chillerbat than is possible. The weavers probably paid least but however this suggests the following fact is apparent viz that as the increase to the House, Loom and Shop taxes amounts to Rupees 38500 - the difference between this increase and the remission of Chillerbat is round Rs 33000 Rupees constituted the alteration in their taxation this difference is in round Rs about Rs 5500 - increase or what they paid before.

Inc

In short, as the revenue collected under the new system falls slightly short of that under the former, nothing is gained in actual amounts, the change consisting of a readjustment and shifting of the incidence of the taxes the precise results of which are not exactly determined and, the palpable advantages of the changes consist chiefly in the recognition of certain definite principles, in fixing and limiting the rates and defining with accuracy the classes on whom the taxation is to fall. *The total amount*

184

This branch of Revenue gives a *net decrease* of Rupees 25,999-15- in the year under reports resulting from an increase of Rupees 6,219-14-1 and decrease of Rupees 32,219-13-7. The former comprises a nominal sum of Rupees 920-5-1 being a transfer from Chillerbol and the rest being real, while the whole decrease is in the produce especially in the description of trees marginally noted.

185

The following is the comparative Statement shewing the above result.

Tamarind Trees
Bougier Trees
Seigakwis

S. Charles 1859/60	Row-ore 1860/61	Differences		
		Increase	Decrease	
71913-4	45913-5	6219-14-7	32219-13-7	
Net Decrease			25999-15-	

186

The real net decrease is 37.4 per cents on the Jinnabunsee for 1859/60.

187

The difference in amount between the sum realized by renting the Government share of the produce of the Tamarind Trees, and that obtained in Row-ore is 21000 owing to the ^{un}favorable character

character of the seasons. It has been observed, that fruit trees generally bears well only in alternate years and it is anticipated, that the next will be favorable season for this description of fruit.

Sevoy Jummabund 188

The whole Jummabund for the year under reports under all the various branches of Revenue amounts to Rupees 2721289-3-9. To this must be added a sum of Rupees 55832-14 realized under the several items comprising the Sevoy Jummabund, which although uncertain in source and amount, is still an item of revenue to Government.

189 The following statement shows the comparison between the years 1859/60 and 1860/61 but the precarious nature of the item renders any explanation on the subjects of its variations needless. although on the whole the year under reports is favorable showing increase of Rupees 3677-4-5.

Sl. Nos.	Items	Collections		Difference	
		For 1859/60.	For 1860/61	Increased	Decreased
1	Sale proceeds of sandalwood	1206 10 4	53 14 4	4	6150 12
2	"Annual" or unclaimed and in testate property	2211 7 9	3795 8 3	1584	6
3	Fines	23377 6 2	23537 6 2	180	
4	Starawide or savings of pay	2354 11	1621 9		913 10
5	"Mchay" Postage collections	3644 3 6	3559 10 6		84 9
6	Bribe	33 3 6	123 6 10	90 3 4	
7	Items of revenue omitted in the Jummabund of previous years	1207 3 5	1090 5		117 3
8	Chiller or Sundries	12940 12 2	22029 15	9089 2 10	
	Totals	52155 9 10	55832 14 3	10943 6 8	7266 2
	Net Increase			3677 4 5	

190. Sandalwood is produced to a very limited extent in this Division, hence auction sales of it do not take place every year.

191. The 3rd item includes all fines and penalties both in the Revenue and Judicial branches.

192. The Biller includes all sundry items credited to Government and for which no separate Head is provided for.

Stamps 193. The Sale proceeds of Stamps are credited under Hoogoor branch of Puffatch Jummee which is quite different from "Igen" and "Sevoi" herein above described and under which all transactions with the Commissioners and other Treasuries are exhibited. They do not therefore form parts of the Revenue.

194. The Sale proceeds of Stamp papers of different values for the years 1860/61 as compared with the previous years are exhibited in the subjoined Table.

Rates	1859/60.				1860/61.				D. Difference				
	No.		Amount		No.		Amount		Increased		Decreased		
1/4. Tanam or	1	2	12738	928	13	14149	1031	11	4	1416	102	14	4
1/2	"	2-4	4401	641	13	5451	794	15		1050	153	2	
1	"	4-8	1581	461	2	2352	686			771	224	14	
2	"	9-4	369	331	14	828	483			259	157	1	
4	"	1-2-8	237	276	8	312	364			75	87	8	
8	"	2-5-3	96	223	8	105	244	7	3	9	20	13	
16	"	4-10-6	25	116	6	41	190	4	6	15	74	8

64	"	18-9-11	10	186	3	13	242		11	3	55	13	
128	"	37-3-10	1	37	3	6	223	7		5	186	3	
Totals			19684	3445	10	23292	4586	7		3608	1140	12	

195. There has been marked increase in the

then years under reports in every description of papers the totals increased being 3608 or 18.3 percents in the numbers of papers and Rupees 1,14,0-12-10. or 33.1 per cents in amounts

Deposits

Deposits 196. To the Revenue Deposits have been kept separate from the accounts. The balance under it at the close of 1860/61 amounted to Rupees 29,817-15-9 consisting principally of Punjab deposits and others sundry items pending final orders. The custom of keeping so large a sum separate from the accounts being both objectionable and hazardous measures have been taken to incorporate it with the Cash accounts from 1st May last. The different forms prescribed in the Treasury have been explained in the

Expenditure accompanying my letter No - of 29th Ultimo.

Balance - 197.

Balance remaining uncollected at the close of 1859/60 amounted to Rs. 58,6419-9-2 which was wholly recovered by the close of September 1860.

198. At the close of the years under reports the unrecovered balances are rather lighters being Rupees 5,15,486-10-10. as detailed

Sand Revenue	357028.5.7
Sayers	8165.1.4
Punjab	39538.7.1
Mohatma fees	42201.11.11
Plough tax	17833.9.8
Farms and Licenses	16167.4.4
Amuse	33650.2.11
Total	514587.10.10
Ticket and advances	899.1.1
	<u>515486.10.10</u>

in the margin and measures have been taken to recover this before the close of the current month.

The collections of the Revenue have been made with the slightest difficulty and no instances has there been occasion to resort to

(For)

to the proofs of distrust of property. This is satisfactory evidence of the prosperous state of the country in a very scarce year -

199. The advances made on accounts *Tuckam*, of Tuckam in the year under reports are very advances. In all being only Rupees 993 against Rupees 3025 in the previous year 1859/60.

200. The prospects of ensuing season *Prospect* although not very satisfactory are better than of ensuing what they were last year. Several of the Tanks Season have received a partial supply of water and the early rains in some parts have been timely.

201. The total population of the *Population* Division for the year *Population* has been estimated at 11,84,594 or 11,839 souls more than what it was in the previous year. The average increase on the whole therefore being a little more than one percent in both sexes is marginally noted.

202. If the Returns are to be credited the increase in all classes however show the advancing state of the country - and if the whole *Immature* is spread over the population it gives 2-4-9. Rupees a head.

	increase per cent on each class	average in census
Males Men	1.65	
Boys	0.34	1.0
Females Women	0.83	
Girls	0.62	0.7
Total about 12 1/2 years	1.26	
Below	0.47	1.0

203. The mortality among the inhabitants from epidemic diseases in the Division exhibited in the accompanying Statement No 5.

The comparison between the year under reports and the previous one is exhibited in the Table marginally noted.

Mortality -

Diseases	1859/60	1860/61	Difference	
			increase	decrease
Cholera	87	1411	1324	"
Fever and Ague	2582	2134	"	448
Other Diseases	513	430	"	83
Total	3182	3975	1324	531
Ratio			793	-

The

204 The ravages of Cholera have been much greater years than in the previous years which is the reason for greater mortality in the former while less in the latter from fever and other compensated more than 20 per cent.

The losses in Animals of various suffered in this Division are shown in the accompanying statements No. 4.

Vaccinations 206.

The total number vaccinated in the year under reports is 27937 of which

	1859/60	1860/61	Difference	
			Increase	Decrease
Number vaccinated by Apothecary	463	775	312	
Total number Vaccinated by apothecary and 21 Vaccinators	27,644	27,937	293	
Number succeeded per cent	97.8	97.93	0.87	
Number failed per cent	2.2	2.07		0.13

27359 have succeeded while a little more than 2 per cent only failed the number of Vaccinators employed is 21 who

in the average vaccinated 1293 each while 775 children were vaccinated by Apothecary Brightman himself. The comparison in the last and previous years is given in the margin.

207. Increase in the number vaccinated increase in the successful cases and consequently decrease in the unsuccessful are the results for the year Rowanee 1860/61 as compared with Sidhantee (1859/60) which all combined together do much credit to the head of that Department, Mr Apothecary G. Brightman.

Financial

208.

The last subject requiring special notice is the Financial result. The total expenditure as affecting the Revenue of this Division in the year 1860/61 is Rupees 8174.27-6-6 or 14,354-4-1

more

more than what it was in the previous years as detailed

in the margin. This increase is the result of a total increase

of Rupees 35,103-8-8. and decrease of Rupees 20,749-4-7.

The latter being wholly in the Maramat Department.

The increase is due to the following reasons.

	1859/60	1860/61	Difference	
			Increase	Decrease
Salaries of European Officers	29,600	37,200	7,600	
Establishment	39,738 11	40,390 14 6	659 3 6	
Contingencies	15,465 9 7	17,051 4 5	1,585 10 10	
Charitable allowances	53,168 3 4	57,573 3 9	4,405 5	
Pensions	4,398	4,812 2 11	414 2 11	
Medical	9,631 2 3	9,850 9 3	219 7	
Maramats	15,288 2 3	13,353 8 13		2,074 9 4 7
Totals	80,307 12 5	81,742 7 6	4,354 4 1	20,749 4 7
Net Increase				

- 1st - Allotments of a Second Assistant Commissioner.
- 2nd - Increase granted to the several Moonsiff Courts especially to the Cantonment Moonsiff Court.
- 3rd - Late revision of Division Judicial Establishment.
- 4th - Additions to Tinchay Establishments.
- 5th - Appointment of additional Establishments for the settlement of Shohatpur and new taxations.
- 6th - Separation of Superintendent and his Assistants Camps on settlement duties.
- 7th - Abolition of Struck Mills and purchase of the Struck from Contractors the rates of it consequently being greater.
- 8th - Establishment of Hindoo & Sanskrit Schools at Cantonment and Anand and English Schools at Deonully.

209. After deducting the expenditure the net revenue including Sora Jamma and sale proceeds of Stamp papers amounts to Rupees 19,67,891-8-6. but the cost of Barr and Sodar Establishments during

only

duty in this Division nothing ascertainable
is not included in the expenditure.

210 I believe it is usual in most of the
Divisions to bring to the notice of the Com-
missioners those Officers and Subordinates
who have been most successful in conducting
the duties entrusted to them.

The short period during
which I have held charge of the Division
would make me hesitate to offer any remarks
on this subject if I was not aware that
I shall be only expressing the sentiments which
Major Dobbs would have recorded and
if I was not glad to avail myself of the
opportunity of acknowledging the willing
and able assistance I have received.

212. Captain Puckle and Lieutenant
Pearce have both contributed by their zealous
and cordial cooperation to lighten the duties
of my position.

213. The former has almost exclusive
revenue charge of 6 of the most important
Talooks of the Division, including Bangalore
and his successful application of the
Shahatufas in its revised form to the
Towns has been already mentioned.

214. Lieutenant Pearce has conducted
the Shagis trial duties of the Division
as regards all cases involving punishment
up to six months and has lately assumed
Revenue charge of 4 Talooks.

215. Both Officers have taken

a fair share of the disposal of the current
miscellaneous judicial and other work
as their services were required and have
in addition successfully prosecuted
their studies in Canaries having passed
the prescribed examination in April last.

216. Captain Pickles' intimate
acquaintance with the general resources
and peculiarities of the Division under his
assistance specially valuable to any Officer
who like myself has not previously served
in the Division.

217. The services of the Head
Srivastava Soodhah have been so frequently
noticed with approbation that it is only
necessary for me to say that I have received
the same valuable aid from him as my
predecessors.

218. The Joint Srivastava D.
Somasunder Rao who was appointed
in February last has by his ability and
diligence fully substantiated the high
testimonials he holds from the Officers
of the Mysore Commission.

219. The Judicial Establishment
has been noticed in a communication
to the Judicial Commissioners accom-
panying the annual Returns.

220. Among the Amildars one
has been reduced lately which is the
only instance of grave misconduct

brought

To the Secy of the
Asst. Secy

12/6/62

Section	312
File No	1426
Serial No	92

We have the honor
by desire of the Comm.
to acknowledge the
receipt of your letter
no 263 of the 5th inst.
and in reply I am
directed to convey
his sanction to your
accepting the tender
of Messrs. Edwards & Co.
for the Nakaree Contract
of your Division, on the
terms mentioned in
your letter, and at the
rate of Rs 2,35,000- for
3 years, commencing
from the 1st of next August.

2 - I am, however
directed to add, that
you are to be careful
to insert a clause
in the Contract to
the effect that it is
terminable at the
close of a year, on
notice to that effect
from either party;
as it is only on
this understanding
that such contracts
can be accepted.

3 - With ref. to paras
2 to 10. The former is
not certain what
points, in the present
system, you wish

should be modified
You are requested
therefore to report
upon any particular
points there referred
to, which you consider
require orders. —

The tender & ~~cert~~
cert with y^r Power.
under reply are
herewith returned

Handwritten text in Devanagari script, likely a title or header, featuring decorative flourishes.

Handwritten text in Devanagari script, consisting of several lines of prose.

Handwritten text in Devanagari script, continuing the narrative or list.

Handwritten text in Devanagari script, concluding the page with a signature or date.

Handwritten text in a cursive script, likely a historical document or manuscript. The text is written in a dark ink on a light background. It consists of approximately 15 lines of text, with some lines being more densely written than others. The script is highly stylized and difficult to decipher without knowledge of the specific language and dialect. The text appears to be a continuous narrative or a list of items, with some lines starting with capital letters or initials. The overall appearance is that of an old, handwritten document.

of H. H. the Rajah of Mysore
Bangalore

Sir,

I have the honor with reference to
letter N^o 1370 dated 8th December 1862 to state for
the information of the Commissioner that I
have had the instrument for defacing stamp
Papers in daily use ever since I received it;
its effects its object and is simple & easy
of repair; but I do not consider it a success
as it requires the exercise of considerable
force, and should a little too much be applied
the catch of the spring is almost certain to
lose its hold, and has to be let before an-
others papers can be defaced

I have the honor to be

Sir,

Your most obedient servant

 Clerk
 Magistrate

permitting me to represent the same to the Salook Amblers.

When I represented the same to the Talook Amildar - I have been directed by an empowerment to represent the matter to the Superintendent of Police, this Gentleman after a full enquiry referred the same to the Chief Engineer.

I then presented and argued on the subject to the Chief Engineer in January 1863 in full detail of the above circumstances and this Gentleman favored me with an order or endorsement to the effect that the same having been reported to your honor, the Chief Engineer cannot interfere any further in the matter.

I herewith enclose for your kind consideration the above and a Mithagar, and most humbly implore that you will be graciously pleased to protect me by ordering the restoration of my 700 Stones after renewing the Proceedings of enquiry held in the Police and the Head Quarters.

For this act of kindness I as in duty bound shall
ever pray.

To

The Chief Commissioner for the Government
of the Territories of His Highness the Maha
Rajah of Mysore.

Most Honoured Sir,

Bangalore.

I the undersigned, Leather Merchant Siddesh
Tombey most humbly and respectfully take the liberty of
soliciting your honour's very kind consideration of the follow-
ing-

That in Bellurkhal attached to the Kistnarajpoo
Talook I purchased a piece of Cundayam Land for the
purpose of building a House, and as this Land lies on
the side of the large Taluk I purchased 700 large com-
stones, at 1½ Rupees each and laid Foundation, which
Captain D. J. P. Campbell took them away, and thereby
I am prevented from proceeding on the erection of my
House and besides this I even now pay a Cundayam
to the Sirkar annually - Therefore I prayed the Superinten-
- dent of the Bangalore Division now Kandydroog Division
by means of an Argee dated 22nd January 1861 to adopt
necessary measures that I may be restored the aboven-
- tioned 700 Stones, and that Gentleman thereupon returned
my Argee with an Embarsement No 17 dated 11th Feb^{ry} 1861
permitting

Municipal Board Office

of H. H. the Rajah of Mysore
Bangalore

Sir,

In reply to your letter N^o 1580 of 16th instant. I beg to report for the information of the Commissioner that a special meeting of the Municipal Board was held on the 21st instant when all the members were present and the whole subject of the administration Report for the Current year and a Budget for 1863/64 was fully discussed and perfectly understood by all both Europeans and Native members.

2. The Committee consider that Major Saubey's remarks & classifications can be carried out and agree with the Commissioner that they are very good and clear.

3. The only doubtful point is that unless a certain sum is placed at the disposal of the Committee as proposed in para 8 they are of opinion that some alteration will be necessary in the 2nd clause of Para 12. headed "Reserve".

I have the honor to be

Sir

Colonel C. Lawford

Chief Engineer in Mysore

Honored Sir,

M. Durgalaxi

With profound respect and humble submission
I leather Merchant Sathuethumby beg most respectfully to
inform your honor that on the 21st Instant I addressed
a Petition & Mahzinnamah regarding my foundation
Stone to which you were kindly pleased and forwarded
it to Captain D. J. P. Campbell Engineer for enquiry
that Gentleman having send for me I desired to receive
30 Rupees to which the Petitioner replied that he
will not agree to receive the said amount while the
building contained a great expence in measuring 32 Yards
Length 1 1/4 yard Bread and 2 1/2 yard height afterwards
Captain D. J. P. Campbell having well considered all
these matters & ordered that he will give me 700 Stones
to which your humble Petitioner replied that he will
receive if the Stones are equal to ~~India~~ the said gentl
man having replied that you shall not get the Stone
as you wished for, the then Petitioner told that he will
apply to the Chief Engineer and he will undergo to what
the Chief Engineer gives decision on these matters

when all these Circumstances passed between me
& Captain D. J. P. Campbell there were Executives
Engineer R. S. Dobbs Esquire Sub. Overseer
Tholasinga Pilly & Writer Chennubraya Moodr.

The

The Petitioner moreover brings his sorrowful Circumstances that near to his Foundation Stone place, that Inhabitants by name Moothackee & Lutchmee Ummall of Kuroopulloo's wife having received their amount without any objection which your honor might well understand the amount received by seeing the Government Account Book & I don't understand why your honor endorsed while the Police Suptth having enquired the matter properly & justly also by Sub Quarter Thomasappa & Captain D. J. P. Campbell the Engineer - Under these Circumstances your humble Petitioner prays most fervently to enquire the matter properly & give me proper decision -

I shall ever remember for your honor's long life & prosperity -

I 5555555555

I beg to remain
Monorvly
